

BROAD STREET BULLETIN

By KATE

While traveling to Elizabeth City last week, at one point on the road traffic got mighty heavy, which seemed unusual for the middle of the afternoon. Quick as a flash, a car passed us at very high speed and almost collided with an oncoming car, scaring us half to death. I made the remark that it looked like a car-load of teenagers. I was very wrong and I apologize to teenagers in general. For, just as we came to the highway patrol station, we glimpsed the car which seemed in such a hurry. From what we could surmise, it was the lead-car of a cavalcade of politicians, stopping at the station to alert the patrol, which led the other cars. I am still wondering what their hurry was—it could have been disastrous.

So many people have been complaining about our extremely hot weather we've been having—but I just love it. When I get to feeling grouchy about the heat, all I have to do is to jog my memory about the cold, nasty weather of winter time, when everyone stays near the fire and complains about the oil bills. Just to be able to be outside and enjoy the outdoors is wonderful compensation for the heat. Another enjoyable thing about warm weather is to be able to paddle up a shady stream and see and hear the birds in the woods and to see a fish jump in the water now and then. Last week, up Rocky Hock Creek, we came across three hoot owls, making terrible noises and creating a regular pandemonium among the birds. Summertime is happy time—the time for living.

Small hands, large hands, strong hands or fragile hands, all are in the spotlight this season. Jeweled hands spell fashion and pleasure for the wearer. The return of sleeves and ruffled cuffs and the general mood of femininity are the two big reasons for the ring and bracelet popularity. This season the rings should be worn for accent and must be bold and beautiful, and bracelets must be elegant!

Did you ever know a man who doesn't like fresh-baked pie? You'll never go wrong with the man of the house if you give him a home-baked pie for dessert. These days when there's plenty of fresh fruits from which to choose for your pie, you can depend on one of these to be a favorite. For instance, now is the season for cherries, peaches, apples or blueberries and they make much better pies when they're fresh. Since Sunday is Father's Day, a delicious fresh pie could be the order of the day.

Did You Know—
One hundred calories per day adds up to a gain of 10 pounds per year.

That we get a complete change of hair on our head every four years, a new set of eyebrows every nine months and new eyelashes every six weeks? (Young people only).

For the Fisherman: Old tooth-paste tubes cut into strips with a pair of scissors make a good wrap-around sinkers.

Slip the skin of a red onion in your minnow pail—this will color the baitfish pink—good for catching bass.

Buff and I got caught Saturday afternoon fishing in the rain, so we just kept on fishing and got dripping wet. But it was fun, just sitting there in the boat not worrying about being wet—just a fishin'.

One of the most energetic women whom I have noticed lately is Mrs. J. L. Pettus. An avid worker in the DAR, she can be seen many times working and supervising the planting and planning of the grounds of the Iredell House. Mrs. Pettus is also very active at the Methodist Church and is always willing to lend a helping hand.

To Mrs. Brabble, who sent me several recipes a couple weeks ago: Mrs. Brabble, please send me those recipes again, as I misplaced the first ones and have been unable to get in touch with you.
