

### Highway Patrol Out In Full Force Over July Fourth

Despite all official pleas for a safe and sane Fourth of July holiday, from past records at least ten as yet unidentified victims will die in traffic accidents on North Carolina streets and highways over the Independence Day week-end.

The state will count its holiday fatalities for a 54-hour period from 6 P. M. Friday, July 3, through midnight Sunday, July 5.

Fatalities can be reduced if not prevented entirely if motorists will observe the basic safe driving rules. Last year on July 4, in District 2 in Perquimans County there were two accidents, one injured and \$280 in property damage. In Chowan here was one accident, no injuries and only \$150 property damage, according to Corporal Lem Meiggs of District 2, Troop A, which comprises the counties of Camden, Currituck, Chowan, Perquimans, Gates, Dare and Pasquotank. Though there were no fatalities, there were 12 accidents with 12 injured and property damage of \$4,395.

North Carolina's 1963 July Fourth traffic toll for a 102-hour period when the holiday fell on Thursday reached 14 deaths and 610 injured in 889 accidents. Leading violations were: Speeding, 189; driving on wrong side of road, 155; failure to yield right of way, 108; following too closely, 103 and reckless driving, 82. "Careless driving practices could cause fatalities to reach Meiggs.

**TOWERING CONTRAST—** A tower of glass and steel dwarfs a hall, contrasting the old and the new London. The 20-story building was built in 1961, the smaller one, in 1680-87.

an even higher figure than we anticipate, so be extra alert and extremely careful over this July Fourth holiday," says Corporal Meiggs.

The Highway Patrol will be out in full force, not to set a record in arresting the motorists of our state and tourists, but in an attempt to make their trip as safe and pleasant as possible. "With your cooperation, you can make this July Fourth a happy holiday for you and District 2 personnel," says Mr.

## With a NEW JOHN DEERE combine

Get in and get out faster . . . bin more bushels, pick up more acres each day with a new John Deere 55, 95, or 105 Self-Propelled.

The new cell-type separating grate separates more grain before material ever gets to the walkers. Consequently, you can speed up 1/2 to 3/4 gear without losing any more grain, without a single penalty.

Other new features you'll like include: bigger grain tanks, faster unloading . . . new safety shields that cover both sides of the separator . . . new operator's platform . . . new cutting and pickup platforms with 20-inch auger. Stop in soon for the full story on these new combines.
