### The Roundup

The recent television special, *Friend, Foe or Fantasy*, in my opinion seemed to be a deliberate attempt to discredit the phenomena of flying saucers—or UFO's. To me, there also appeared to be an atmosphere of partiality threading through the story. The case for UFO's was not openly attacked but it was played down. Ridicule of flying saucers was not used, but it was implied. And, to me, the whole show appeared to be a staged presentation with officialdom on the sidelines pulling the strings.

**JUST A QUESTION** — Why were local and other officials reluctant, and the Governor had to authorize the use of the National Guard Armory.

#### CARD OF THANKS

I wish to express my sincere thanks to my many friends for the cards, gifts, flowers, and visits I received during my recent illness and confinement in the hospital. I especially want to thank you for your prayers. To the doctors and nurses I wish to thank you for your good care and treatment. May the Lord bless each of you.

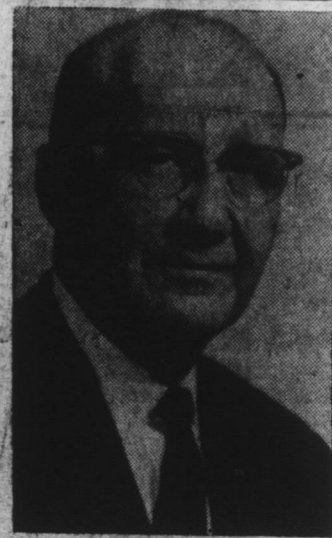

Mrs. Sadie Osteen.

when Dr. Martin Luther King spoke here recently? Incidentally, drawing one of the largest crowds ever gathered in Edenton . . . Just curious, that's all.

I shudder to think what would have been the reaction of oldtime school officials, principals, supers, administrators, if they were confronted with the flagrant contempt for their authority that took place at the University of Chicago a few days ago. I fear there would have been some bloody noses and broken heads—those old boys were stern and brooked no interference from mere students. But, how times have changed . . . For the better? In this respect, I doubt very much.

Will Premier Ky turn out to be another Castro? He sure has all the earmarks of a potential dictator in the making, and is waiting for just the right moment to clamp down. Remember, Castro had everybody fooled, even us, but he eventually showed his true color—red. And if Ky does manage to pull off some kind of a coup and get control of Vietnam, it is going to leave us in the middle, and with no course left but to make an ignominious withdrawal.

Books are opportunities knocking on your door—let them in. Patronize your local public library.
