Questions and Answers

George Dietrich, Field Representative of the Social Security Administration is in Edenton every Thursday and is located in the old Municipal Building.

(This is another in a series of articles by Thomas P. Wyatt, social security district manager in Greenville, on how Medicare will work when it begins in July. The information is based on "Your Medicare Handbook," the guide that will be issued to all Medicare beneficiaries during June. You may want to clip and discuss this article, so as to be fully informed about Medicare. The people in the social security office are ready to answer any questions you may have.)

Inpatient Hospital Service
Hospital insurance will help to pay your care in a hospital for up to 90 days during each spell of illness.

Dollars and Cents
Each spell of illness provides for 90 days of benefit services. For the first 60 days, the insurance pays for all but \$40 for the covered services you receive. From the 61st to the 90th day you would be responsible for the first \$10 each day for covered services.

What Hospital Insurance Will Cover
—Room and board in a semi-private room (2 to 4 beds in a room).
—Nursing services ordinarily furnished to the hospital's patients.
—Supplies, appliances and equipment ordinarily furnished to the hospital's patients, such as splints, casts, wheelchairs, crutches, etc.
—Blood transfusions, except for the cost of the first three pints of blood in one spell of illness.
—Medical services ordinarily furnished by the hospital.
—Therapeutic services or-

dinarly furnished to the hospital's patients, such as X-ray or radium treatments.

—Operating room costs.
—Drugs and biologicals ordinarily furnished to the hospital's patients.

—Diagnostic services ordinarily furnished by the hospital to its patients. For example, blood tests, electrocardiograms, etc.

—Services of hospital residents and interns who are in training programs.

What Hospital Insurance Will Not Cover
—Private room, unless it is medically necessary—ordinarily only when the patient's condition requires him to be isolated (otherwise you pay the difference).
—Private duty nurses.
—Cost of first three pints of blood (hospital will not charge for pints replaced by donors).

—Physicians' and surgeons' services. (Medical insurance helps pay doctor bills).
—Personal comfort items, such as radio and telephone charges, TV rental, etc.
—Hospital services after 90 days in a spell of illness.

Interest rates on U. S. Savings Bonds have been increased four times since the first Series E Bond was sold on May 1, 1941. The rate may not be lowered during the term of a bond. Current rate is 4.15%, when held to maturity.

Chairman Harrell called attention to a report on the

operations and maintenance of the sewage disposal facilities recently received from the N. C. State Stream Sanitation Department in Raleigh. This report was highly complimentary and congratulated the department management and attention to detail in its operation.

Mr. Harrell gave a report on the APPA convention in Boston, which was attended by Mr. Ricks, Mr. Earnhardt, Mr. Hines and Mr. Harrell. Mr. Harrell stated that the convention was attended by 1,200 representatives of municipal electric systems throughout the country, Canada, Mexico, Australia and New Zealand. The seriousness of these delegates was impressive and the conduct and caliber of the programs proved most enlightening and helpful.

Mr. Harrell called attention to the superintendent's report on this meeting and asked the other Board members that attended this convention for their comments. A brief discussion of this matter ensued.

There being no further business, the meeting adjourned.

RICHARD N. HINES, Acting Secretary.
