## The Roundup

There is some construction work underway a short distance from my house. Mindful of my own forgetfulness, I've often wondered if on jobs like these, after a terrific amount of ground work has been completed and the

### Witnesses Plan Big Gathering

Jehovah's Witnesses of the Edenton congregation are completing their preparations to form a delegation to a five-day convention of the group in Baltimore, Md.

Under the direction of Raymond Weathers, 219 Carret Street, local presiding minister, the Witnesses will be among 50,000 or more persons attending the "God's Sons of Liberty" District Assembly of Jehovah's Witnesses, to be held in Baltimore's Memorial Stadium August 17-21.

According to Weathers, many of the local group have arranged their vacations from secular jobs so they can attend the entire convention.

"Most people spend a vacation at the shore or in the mountains, and they cannot conceive of families using their vacations to attend sessions of Bible talks," he said. "It is even more difficult for them when they learn that oftentimes the delegates volunteer to work in one of the convention departments. Yet to us the annual assembly is the highlight of the year—something we really look forward to."

There has to be a motive and, of course, there is. "It's love of God and of one another," Weathers explained.

building half finished, what, if anything, could be done if it were discovered that something vital had been forgotten or omitted. Would the builders have to tear down what they had completed and start again? Every time I see a building under construction, this worries me.

**TIDBITS**—Peace, like happiness, will never be wholly attained. . . . Newsmen and photographers are the unsung heroes of the battlefields. . . . Sam Ragan in the N & O reports on what history is. I can add another: History is what action and plot are to a well-written novel. . . . I don't like superlatives in advertising. No one has a monopoly on Best, Greatest, Finest, etc. A dealer may be as good as his competitor—so he should operate on that premise and let the consumer decide who's best.

A true lover of books needs no reminder to patronize his local public library.
