1965: USAC-supervised tests proved that a '65 Ford rode quieter than a \$17,000 Rolls-Royce.

1966: After comparison rides, owners of the world's most expensive luxury cars like Jaguar and Mercedes-Benz agreed that a '66 Ford was quieter.

1967: At the Lake Placid Olympic ski jump a '67 Ford took leap after punishing leap and rode away still quiet, still strong. Other '67 Fords went on a bone-jarring steepchase ride and a grueling trip up and down the Los Angeles Coliseum steps. The results were always the same: still quiet, still strong.

Year after year, you're ahead in a Ford -ahead in quiet, ahead in strength.

Year after year, we do things you'd never do to demonstrate Ford's quiet and strength. This year's tests were the toughest yet. But the durable Ford came through again—quiet and strong. That's because the 1967 Ford is the strongest, quietest Ford we've ever built. Over 150 important parts have been strengthened and improved. And the '67s offer plenty of convenience and luxury features too. SelectShift Cruise-O-Matic transmission that's fully automatic and fully manual. It all adds up to a pretty strong argument for saving at your Ford Dealer's now. Quieter because it's stronger...stronger because it's better built.

KEEP IT CLEAN

America the Beautiful... Is Everybody's Job

It's the job of every family that spreads a picnic on a roadside table.
It's the job of every boatman who cruises the lakes and waterways.
Every driver, every walker, every fier.
That's why our Association throws its whole-hearted support each year into the *Keep America Beautiful* campaign.

Lovely country we have here. Let's keep it that way.
