### Fry, Stalls At Conference

GREENVILLE—Some 40 Eastern North Carolina educators were at East Carolina University last week for the 10th annual Administrators Conference on Industrial Arts.

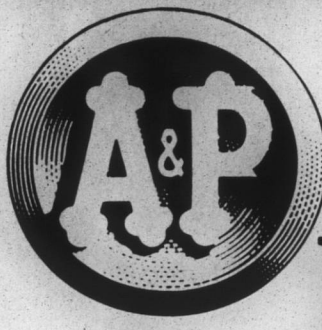

In attendance was Cecil W. Fry, principal, John A. Holmes High School in Edenton, and Kenneth L. Stalls, principal, Chowan High School at Tyner.

The conference included an address by Dr. Neill Rosser, chairman of the Governor's Study Commission on Public Schools in North Carolina, and a panel discussion featuring four faculty members of the ECU Department of Industrial and Technical Education and one state supervisor.

#### LOOK, NO BRUSH

"Touch-EE" applicator is a new brushless paint brush. Inexpensive, throw-away applicator uses open-pore polyurethane foam (from Foam Division, Scott Paper Company) as the paint-metering agent.

# what kind of coffeemaker do you use?

It really doesn't matter.

Any coffeemaker can give you a good cup of coffee, providing you use a fine fresh coffee that is ground exactly right for your coffeemaker.

We've always known that the correct grind is important to coffee flavor.

That's why, years ago, we developed Custom-Grinding.

That's why we don't have just one or two grinds but seven different grinds... to fit any coffeemaker, including electric percolators, of course, (Ask for medium-fine grind for electrics).

Custom-Grinding means a little extra work for us and a little extra time for you.

(It takes 15 seconds to grind a pound).

But what a difference in flavor those few seconds make.

You know, there's only one reason we insist

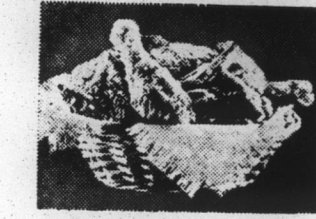

on selling custom-ground bean coffees... **WE CARE.**
