We're "Air Conditioned" all Winter, While we dream of the heat of Summer. Then "Air Condition" takes over again, Are we getting smarter or dumber?

I suppose I am among the minority group who do not like air conditioning. I do like the change of seasons, but summertime with all its heat is my favorite. Being closed in an air-conditioned room is depressing to me. It's wonderful to have open doors.

I thought that when my family got smaller, I'd be through such things as canning fruits and vegetables. However, although it's on a smaller scale, I'm about to can again. Mr. B. is a small garden and has raised an over supply of snap beans and wax beans, of which he is quite proud —so today is "Canning Day."

Our friend, Miss Lena Jones, has returned to Montreat for the summer and although we know she loves to be there, we miss her so very much, because of her friendliness and cheerful outlook on life.

Another reason that we like the summer season is because of its casual and comfortable outdoor living. As soon as possible we be-

gin eating on our screened-in back porch. In fact, it becomes almost our entire living quarters, minus the TV, which is not too important.

I talked with one of the beauticians in town who had recently attended a beauty show of hairdressers, and she tells me that the trend of short hair will continue. However, it will be with the more softness of curls, pushed toward the face. That's good news, as I am all for short hair as you may have noticed!

It's good to hear that Virginia (Mrs. Tom) Byrum is home again, feeling much better. We hear that Frank Muth is slowly improving. Our prayers and thoughts are also with Izzy Campen and Wilborne Harrel, who are in the hospital.

Don't forget to read my Shopping Guide in The Herald each week, as there are values there you won't want to miss. It will also point out to you that Edenton is the best place to buy and you CAN GET IT HERE!

anti-wear gasoline

PURE FIREBIRD. CUTS ENGINE WEAR TO KEEP POWER UP
