**Know Your Social Security**  
Donald Morris, Field Representative of the Social Security Administration, is in Edenton every Thursday from 9 A. M., to 1 P. M., and is located in the Court House.

Beginning in January, an older person who goes to the hospital under medicare will be responsible for the first \$44.00 of his hospital bill — now running about \$600.00 for the average hospital stay by a medicare beneficiary, Robert Alford, social security officer in charge, said.

The \$4.00 increase (from the present \$40.00 deductible) results from a provision in the law requiring an annual review of the deductible amount. The first such review the law provided, was to be made in 1968.

The law specifies that if this annual review shows that hospital costs have changed significantly, the hospital deductible amount must be adjusted for the following year. Necessary increases in the deductible amount are to be made in \$4.00 steps to avoid small annual changes.

Following the formula in the law, and figuring the ratio of in-patient hospital

costs under medicare in 1966 with those in 1967, the deductible amount for 1969 worked out to \$45.36. Rounded to the nearest multiple of \$4.00, this will make the deductible \$44.00 for 1969.

The results of the annual review of the in-patient hospital deductible also apply to the dollar amounts of medicare beneficiary pays toward a hospital stay of more than 60 days.

These amounts therefore will also increase by 10 per cent, effective January 1—to \$11.00 a day for the 61st through the 90th day of a hospital stay; to \$5.50 for the 20th to the 100th day of a stay in a post-hospital extended care facility; and to \$22.00 a day for each day of the (lifetime reserve) of 60 days, the reserve account a beneficiary can draw upon if he ever needs more than 90 days of hospital care in the same benefit period.
