

Around Chowan Farms

By C. W. OVERMAN
Chowan County agricultural and home economics Extension work is meant to be channeled in areas most efficient and effective in helping people develop a better way of living. Very often there are problems and needs existing over the county which are overlooked. Every person in the county has a responsibility to help in discovering these problems and needs and seeking a means of solving them.

The present Chowan County Extension Advisory Board is made up of the following people: David Bateman, Mrs. Vivian Jordan, Earl G. Harrell, William Bonner, Henry Hinton, Rev. Meredith Garrett, Thomas P. Griffin, Mrs. Etta Hathaway, Mrs. Mary Long, Mrs. C. W. Overman, T. C. Byrum, Jr., L. C. Bunch, Bristoe Perry, W. M. Hare, George Lewis and Miss Diane Peadin. These people represent every area in the county. It is their responsibility to study the problems and needs over the county and to cooperate with the Extension workers in developing programs to solve the problems and meet the needs.

The Extension Advisory Board will meet at the county Extension office on Tuesday night, January 14, at 7:30 o'clock. The

purpose of this meeting will be to evaluate the work performed in 1968 and to make plans for the future. These board members are open to suggestions and if you have ideas or suggestions, please pass them on to them.

Soil Information Week: During the week of January 20 we have scheduled seven community meetings over the county on soil testing and soil test reports. At each of these meetings we will explain and try to have each person attending understand how to interpret and use the present soil test reports. It will be very helpful if every farmer will bring one or more of his soil test reports so that he may work with them personally. We will also discuss soil sampling and preparation of the field information form.
