

Around Chowan County Farms

By C. W. OVERMAN

Vegetable Insect Control: Growers are calling for insect control on watermelons and cantaloupes. Cutworms and flea beetles are the principal problems thus far. Cucumber beetles work on these same crops doing much damage before detection.

For control of cutworms 14G Diazinon is good. The granular Diazinon should be applied as a six to eight inch band prior to or at planting. Be careful to not concentrate the material in the seed area while the other of the two-row equipment operated properly. A poor stand resulted in the first row necessitating replanting.

Another grower set his

granular spreader between the planter boot and covers. This spreader a six inch band so very little of the material actually fell in with the seed. There was no stand injury in this case.

After the melon plants are up Diazinon granular may be applied in a band over the plants just ahead of light cultivation. Plants must be dry so the chemical does not stick to the leaves. Do not concentrate material over the plant area but use a spreader tip making about a six inch band.

Flea beetles, cucumber beetles and most foliar feeding insects may be controlled with Lindane. Spraying may be more effective than dusting but both are effective. Read the label and follow the instructions. Remember, you are not broadcasting but spraying over a small

plant area so apply accordingly.

Peanut Planting: As I write this on Tuesday morning it is raining. This will delay us a few days. Remember, this week and next week is our main peanut planting time.

Cotton Planting: Cotton planting time is here, preferably next week. Practically all cotton seed now are acid delinted (black seed).

A good stand of plants is necessary for highest yield. If the seed germination is 90 per cent or higher, plant about 15 to 16 pounds per acre. This should be an average of six to eight seed per foot of row. If the seed germination is under 90 per cent, increase the seeding rate accordingly. Plant seed about a half inch deep.

Granular Di-Syston applied at planting will control sucking insects as

mites, thrips and aphids for 60 to 90 days. Use a spreader between the planter boot and covers or set the application tube a little to one side so that most of the chemical does not fall directly on the seed. Too much chemical in direct contact with the seed may cause injury.

Apply the recommended herbicide of your choice for weed and grass control. Read and follow label instructions.

HOSPITAL PATIENTS

VISITING HOURS:
p to 4 P. M.—7 to 8 P. M.

Patients discharged from Chowan Hospital April 22-29 include the following:

Miss Grace Watson, Mrs. Nina Riddick, Mrs. Virginia Kirby, Mrs. Lillie Mae Stallings, Mrs. Carrie McFadden, Miss Emma Perry, Miss Linda Faye Stevenson, Mrs. Emily Phelps, Mrs. Roberta Felton, Mrs. Susie White, Mrs. Ann Asbell, Clarence Tarkington, Thomas Bateman, Mrs. Dorothy Maher, Mrs. Virginia Grimes, George Nowell, Mrs. Nona White, Miss Catherine Evans, William Myers, Mrs. Mary Basnight, Jacob Barger, Mrs. Janet Hurdle, Mrs. Mildred Roberts, Mrs. Rosie Green, Leroy Spruill, William Modlin, Mrs. Nelia B. Smith, Ernest Stevenson, John Potts, Andrew Jackson, Mrs. Hattie Beasley, John W. Morris, Kader Riddick.

A Thought to Remember

By MARVIN BARHAM

There are many theories going around in our world today. Some say the world is getting better, and others maintain that every day we are becoming worse and worse.

Can both be right—or both be wrong? Whatever shape the world is in, it was put there by people.

What kind of a shape is your world in? Whether you like it or not, you are in a world all your own. And that world of yours is either beautiful or ugly. Whichever it is—it was created by you.

Someone has said: "If the people who analyze the world's condition look beyond themselves—they just might find a different picture."

If you find a person with a bright and happy outlook, what a wonderful world they must see.

OUR THOUGHT TO REMEMBER: "THE FUTURE IS BEHELD THROUGH ONLY YOUR EYES."

Vets Corner

WATERCOLOR DISPLAY

Q—I am not eligible for a G. I. home loan since my husband, who died of a service-connected disability in 1967, was in service after World War II, but before the Korean Conflict, from January 1948 until January 1950. Am I entitled to educational assistance from the Veterans Administration under a new law that went into effect last December?

The watercolor class of Mrs. Jacqueline Jenkins will have an art show from 2 P. M. to 5 P. M. Sunday in the Art Center in Elizabeth City. The public is invited to view these works of students.

CARD OF THANKS

The family of Jesse G. Spruill would like to thank their many friends, relatives and neighbors for the cards, food, flowers, cars loaned and prayers offered in their behalf and all other acts of kindness shown during the illness and death of their beloved husband and father. These have made our days of sorrow easier to bear.

Our special thanks go to Dr. L. P. Williams and Rev. E. L. Earnhardt.

RE-ELECT

Luther C. Parks

Councilman Fourth Ward
TOWN OF EDENTON
Tuesday, May 6th

Your Vote and Support Will Be Greatly Appreciated!

For the past five years I have tried to make every citizen in Edenton aware of their local government, and to take part in each election. I am very proud to say that this has been done. We have 15 people seeking office this time. I think this is a very healthy sign.

In the past five years I have attended the council meetings and kept up with all actions of our local government, and in turn, passed most of this information on to interested citizens. From this, more people have become better informed of local issues, and this is the way it should be.

I won't say I'll solve all our problems, but I will say I'll start... I won't say I have all the answers, but the ones I don't have, we will find by working together.

I am looking forward to working with each and every citizen in the next two years.

I ask that on May 6th you go to the polls and cast your vote for me.
