Some light on a dark subject

Ever wonder why some pills come in clear, transparent bottles, while others hide behind brown or dark-green glass? It's no accident, but by design. Why...? Simple daylight can reduce the potency of some medications. Consider how sunshine fades a rayon print, for instance.

Thus, where needed, we use dark bottles, not to hide anything, but to preserve the medical effectiveness of the drug your physician prescribed for you. This is but one of many precautionary measures that are taken to provide you with the best in pharmaceutical service.

OFFICE OF THE MAYOR

NORTH CAROLINA

Fellow Edentonians:

For the first time in 18 years I am not a candidate in the biennial Municipal Election. The fact that I did not choose to seek re-election in no way indicates a lack of interest in the affairs of our community.

It has been my privilege over the years to serve as Councilman, Mayor Pro-Tem, and for the past 10 years as your Mayor. Your past support and interest in municipal affairs has been a big factor in making Edenton the leader in Northeastern North Carolina. Without question, our economic standing is the best in our history, in industrial payroll, retail sales, and personal income.

With your continued interest in good government we can look to the future with even greater anticipation. I earnestly impress on you the importance of casting your ballot in Tuesday's election.

Most sincerely,

John A. Mitchener, Jr.,
Mayor.
