construction.

In cleaning off a corner of our desk over the holidays we came across some interesting facts about public education in Tar Heelia. We are confident that others who meander along the Public Parade will appreciate this information.

Did you know?

A total of 1,126,507 students are enrolled in public elementary and secondary schools during the 1975-76 school year.

-There were 2,033 public schools in North Carolina in 1974-75, 1,421 elementary, 286 secondary, and 326 combined.

—The average teacher's salary in North Carolina in 1974-75 was \$10,927 a year, the highest in the Southeast and 18th in the nation.

-Tar Heel children were served an average of 848,774 lunches each school day during 1974-75.

-Some 58,489 children, over half of the states's five year olds, are enrolled in public supported kindergartens during the 1975-76 school year.

-The 1975 General Assembly appropriated 1750,000 for the 1975-76 school year to be used to improve reading instruction in grades one to three.

-Enrollment in occupational education courses in public schools has increased from approximately 166,000 students in 1967-68 to 350,000 students in 1974-

-North Carolina received approximately \$185-million in federal funds to supplement education programs during the 1974-75 school year.

-North Carolina now has five Regional Education Centers serving local school units in the west, northwest, and southeast regions of the state.

-The number of school units in North Carolina has dropped in the past 15 years from 174 in 1960 to 148 in 1975.

Willie Holley

Three members of the Edenton

Aces grid squad have been named

by the Raleigh News and Observer

to their Class 3-A All-East team.

Runningback Willie Holley and

linebacker Win Dale were

revealed as picks for first string

on the All-East team in the

labeled him the best high school linebacker I've seen in my coaching career. Offensively, he acquired a grade of 92.0 for carrying out his blocking assignments.

Breeder Club **Event Set**

The 1976 Winter Type Conference of the American Yorkshire Club will be held in Kinston, on January 21-23. This event is co-sponsored by the American Yorkshire Club and the N. C. Yorkshire Breeders.

According to Glenn Conatser, Yorkshire breed secretary, this will probably be one of the biggest type conferences ever held by the American Yorkshire Club. He expects around 150 boars, 200 open gilts and 40 bred gilts from over 1000 of the top herds in the country. This event will attract purebred as well as commercial producers from nearly every part of the country.

This three-day event will start January 21, with the showing of test station boars and a seminar on soundness and underlines. Thursday morning activities include the judging of the boars, open gilts and bred gilts. The highlight of the event will be the selling of all the boars, open gilts and bred gilts on January 23 at 1 A.

All Yorkshire breeders and commercial hog producers are Continued On Page 4

Change And Pingress Noted In '75 retirement from the U.S. Postal Service in August. Larry Knox was chosen to succeed Goodwin after his 36 year tenure.

> When students returned from summer vacation to the Edenton-Chowan Schools, they found a new superintendent in charge. Dr. John L. Dunn, who came to Edenton after having served as superintendent of Harnett County Schools, succeeded Dr. Eddie West at the post here. Dr. West resigned to become superintendent of the High Point City Schools.

> And of course there was football. The Edenton Aces took the Northeastern 3-A Conference title and advanced to the play-offs where they first defeated Greene Central High School, but fell to unbeaten Havelock High School.

> Probably the greatest item of continuing activity during the entire year was the county-wide water system.

Early in the year Chowan County voters authorized the sale of \$1.9-million in bonds, while state and federal grants were pledged in excess of \$1.3-million.

Magette Well and Pump Co. of Ahoskie was low bidder for drilling four deep wells.

As plans were progressing on the project, it was learned by the Chowan County Commissioners

Net Collections

Net collections from the 1 per cent local option sales tax in Chowan County during November, 1975, amounted to \$20,508.06, according to a report issued by Sec. J. Howard Coble of the State Department of Revenue.

Throughout the state the collections were \$10.6-million. In other Albemarle Area

counties they amounted to: Camdon, \$2,795.88; Currituck, \$11,579.81; Dare, \$39,373.43; Gates, \$6,068.34; Pasquotank, \$66,827.19; Perquimans, \$8,563.63; \$4,218.97; Tyrrell, Washington, \$23,730.07.

that the system might have to be divided into two regional systems because of highway regulations related to utilities on limited access highways. It was feared that this might jeopardize some federal funds and cause the cost of the project to exceed the \$3.2-

THE CHC WAN HERALD

million available. In May bids were opened and Bryant Utilities Construction Co. was awarded the contract to build the distribution system. Universal Tank and Iron Works of Indianapolis, Ind. was low bidder for constructing four elevated storage tanks. The bids were tabulated to reveal a total cost of \$3.9-million, resulting in an overrun of \$700,000.

In June that overrun was offset by an FmHA grant of \$525,000 and a loan of \$350,000.

And in July, the word was given

to proceed with the project.

The commissioners began working out an agreement, in September, with MacMillan Bloedel for providing county water to the airport plant site; and the commissioners began discussions with the Town of Edenton about the possiblity of interconnecting the town and county water systems. By that time the commissioners had also finalized purchase of the Cape Colony water system which meant existing lines there would not have to be paralled.

A series of regulations were adopted in October dealing with the water system, but the commissioners indicated that there was no immediate plan to appoint a commission to oversee construction and operation of the project. They added, however,

that they must soon decide when the appropriate time would be to appoint a water authority.

As of present time, miles of pipe have been laid, and the county has adopted a mutual assistance policy with surrounding counties should they opt for a centralized water system.

Progress in terms of construction was not limited to the water system. Renovation of sidewalks in downtown Edenton were finished, complete with brick sidewalks, colonial-style street light fixtures, benches, arbors, and trees.

On South Broad Street work continues on the Cupola House Gardens. During 1975 the garden was fenced in, bricking of the walkways began, and preparations for planting were and are underway.

Around the corner from the Cupola House construction was begun on a waterfront park. The Woolard Building, between the park and the Municipal Building, was purchased by the Town of Edenton as an annex to the Municipal Building. The park, itself, will among other things, feature a fishing pier for those who take interest in the great tradition of the cane pole and can of redworms.

AADA To Meet

The ten-county Albemarle Area Development Association will meet at the American Legion Building in Edenton on Thursday night, January 8 at 7.00 P.M.

This year, for the first time, the Community Development and County Awards is presented separate from the annual meeting. The program will consist of the accomplishments of communities in 1975 and then the awards will be presented to the communities and county by Mrs. Lillie C. James of Washington County.

Mr. Raleigh Carver of Pasquotank County is the new president of AADA and he would like to invite all interested people to attend the AADA meeting. The tickets for the dinner are \$4.50 each and dinner will be served by the American Legion. These tickets are available at the County Extension office and should be purchased by Tuesday, January 6 so that reservations will be made for the ticket holder.

WORK GOES ON-Work on the downtown Edenton improvement project began in the block between King and Water streets this week. Crews were taking up curb and guttering as well as a portion of the sidewalk, as is shown here, while others followed with conduit for underground wiring. Putting down the brick sidewalks will begin June 16. W. B. Gardner, town administrator, said the brick work has been delayed to allow workman to get as many tree wells, conduit and curb and gutter in as possible.

Recycling Program Is Announced

recycling program -- which pays cash on the spot for all-aluminum cans and other clean household aluminum - to include a mobile unit collection stop in Edenton.

E. J. Kelly, Jr., Mid-Atlantic regional recycling manager, in making the announcement, said the program will begin on Thursday, January 8, when the mobile recylcing unit arrives at Northside Shopping Center from 11:15 A.M. to 12:30 P.M. The recycling unit will return every other Thursday at the same location and time each month.

The public is encouraged to bring all-aluminum beverage cans and other clean household aluminum found in the kitchen such as pie pans, frozen dinner trays and foil to the unit and recieive payment of 15 cents per

Aluminum is easy to identify. The best way is to place a magnet on the side and ends of the can. If it does not stick, the can is aluminum. Many cans have the words "recyclable aluminum" printed on the side, have rounded bottom edges and no seam on the

With the addition of Edenton, the total number of locations in this state moves to 43. "This program will make for an even cleaner Edenton environment,' Kelly said. "In addition, aluminum recycling conserves an important natural resource and saves energy -- each time aluminum is recycled, a 95 per cent energy savings results over producing aluminum from virgin

Kelly pointed out that in other cities with recycling programs civic clubs, church groups, charitable organizations and schools use the Reynolds program as a worthwhile method of raising cash for their needy projects.

Since beginning its program in 1967, the company has paid the public about \$25-million and

Reynolds Aluminum Recycling collected in excess of 4-billion all-Company today announced it is aluminum beverage cans. In the expanding its nationwide first 10 months of this year, Reynolds collected the equivalent of 1.6-billion all-aluminum cans from the public, operating its program in 36 states, an increase of almost three times over the similar period in 1974.

"We are very proud of the fact that Reynolds is redeeming the equivalent of about one out of three cans sold by its can division, the leading aluminum can manufactureer in the United States," Kelly said.

is continuing. Mulberry Hill Nominated For Register

RALEIGH-Mulberry Hill near Edenton has been nominated for inclusion in the National Register of Historic Places by Bruce MacDougal, deputy state historic preservation officer. The register is described as a national list of distinctive properties worthy of preservation because of their historical or other cultural value.

Mulberry Hill is a very handsome Federal style side-hall plan brick dwelling picturesquely sited overlooking Albemarle Sound; it is located on a plantation which was established by Col. James Blount late in the 17th Century and the seat of the Blount family for several generations. Architectural features indicate that the house was built in the early years of the nineteenth century, evidently during the ownership of Clement Blount.

Mulberry Hill is an unusual rural usage of the side-hall plan more often used in town houses notably in New Bern, where Clement's brother, Frederick, owned a handsome brick side-hall town house. Mulberry Hill was cited by Thomas T. Waterman in "The Early Architecture of North Carolina" as having "considerable architectural distinction. . . obtained by the skillful design of the various elements, including the gable." The house features excellent

brickwork and well executed. intricate Federal woodwork inside and out.

Car Stolen

Friday in Norfolk, Va.

\$77.50 were stolen.

A 1975 Buick was stolen from

Hoke Motor Company here

Christmas Eve or early the next

morning and was recovered

T. Davis Jewelers over the holiday

and a watch stolen. Investigation

The nomination was submitted in connection with the Division of Archives and History's long-range program to identify and document the authenticity of historic properties in North Carolina. Approval of the nomination by the Department of the Interior usually takes about six months and will be announced through the state's congressional delegation.

NOMINATED-Pictured above is Mulberry Hill which has been nominated for inclusion in the National Register of Historic Places. The nomination was made by the State Division of Archives and History.
