

NORTH CAROLINA BICENTENNIAL BICYCLE ROUTE

NORTH CAROLINA  
COUNTY OUTLINE MAP

## Cross-State Bicycle Route A Reality

RALEIGH—N. C. Department of Transportation (DOT) officials have selected North Carolina's first cross-state bicycle route.

The 600-mile course, known as the Bicentennial Bicycle Route, runs from deep within the Appalachian Mountains to the coastal Outer Banks. This route is the first of five or six such bicycle routes to be designated throughout the state.

The Bicentennial Bicycle Route was developed, over a two-year period, by DOT's Bicycle Program staff. "Our primary purpose in selecting the route was to provide some measure of safety for the bicycling public. In selecting the bike route, our staff chose

roadways with low traffic volumes and good road conditions," explained Curtis B. Yates, N. C. Bicycle Program Coordinator.

Yates said that his staff is in the process of producing a bicycle route pamphlet that will include detailed maps of the Bicentennial Bicycle Route along with a descriptive narrative and information about service facilities and other points of interest. He added, "The bike route pamphlet will be available to the public and we hope to have it ready in the next two or three months."

Cyclists interested in finding out the recommended bike routes in their areas or those seeking other bicycling information

are urged to contact Curtis B. Yates, N. C. Bicycle Coordinator, N. C. Department of Transportation, P. O. Box 25201, Raleigh, N. C. 27611, (919) 829-2804.

## Pre-addressed Labels Speed Tax Return

GREENSBORO — Taxpayers can speed their refunds by attaching the pre-addressed label to their returns when filing, Robert A. LeBaube, IRS district director for North Carolina said today.

"If returns are other wise error-free and all necessary documents are attached," LeBaube said, "these labels speed processing of refund checks."

The label, included in the tax package that taxpayers receive in the mail, lists the taxpayer's name, address, and social security number.

LeBaube emphasized that if the name, address, or social security number on the label is incorrect, taxpayers should make corrections right on the label.

On a joint return, if only one social security number appears on the label, the other spouse's number should be entered on the appropriate line on the return.
