

**Around Chowan
County Farms**

By R. M. Thompson
County Ext. Chairman
With the warm weather that we have had there is a possibility of aphids building up on small grain, gardens and shrubbery. One of the best ways to control aphids is for you to spray Malathion at the rate of 1½ pints of 57 per cent EC to the acre. For the material to really be effective air temperature should be above 55 degrees. We would certainly suggest that you check to see if aphids are attacking your plants and if you do find them in substantial quantities, spray them.

For those of you that have had problems in getting stands of peanuts in the past, there is a material on the market this year that you might like to add to your seed. The name of it is Vitavax. It is sold as a wettable powder and we are suggesting that you use 3 oz. to the 100 lbs. of seed. The best time for this material to be applied is when the seed are being treated as you can get a much better coverage. We believe that this material will help the emergence of peanuts if it is applied properly. This is especially true if the peanuts have a tendency to be a little weak in germination.

One of the things that we should do to control Southern Stem Rot in 1976 is deep plowing and fully covering old stubble to prevent a build up of this disease. We should cultivate flat to avoid throwing soil around the plant and have a good leaf spot control to prevent leaf shedding. Also good rotation over the coming years with cotton, corn, grain sorghum and small grain will help to prevent this build up. Chemical control of Southern Stem Rot will be much more effective if you use these cultural practices yearly.

**White Oak PTA
Holds Meeting**

The White Oak School Parent-Teacher Association held its quarterly meeting March 8 in the school's cafeteria. Approximately 115 parents and students attended the meeting.

As guest speaker, Dr. John Dunn, superintendent of Edenton-Chowan Schools, presented a comprehensive program on "Public Education - Getting Your Money's Worth." He pointed out that pro-rated state, local and federal funds amounts to approximately \$1,200 per student per year. He also projected future financial, physical and curriculum needs in the face of anticipated declining student enrollment in Chowan County.

To the delight of all present, Mrs. Spencer's Second Grade presented a program on "Spring and Cinderella." Among other items of business, the PTA voted to have a Bake Sale during the Bicentennial Arts Festival to raise money for school projects.

Tammi Leigh Bass Mr. and Mrs. Rodney Lee Bass, Jr., of Edenton, announce the birth of a daughter, Tammi Leigh, on February 11 at Chowan Hospital. Mrs. Bass is the former Shelia Ward of Belvidere.
