Chowan ASCS News

Peanut Transfers
Peanut allotments may be transferred in 1976 by sale or lease to other farms in the county. In the event Congress changes the present law, the acreage might be different from what it would have been under the law in effect for 1975. Agreements to transfer allotments must be filed in the ASCS office by April 1, 1976.

Cotton Allotment
Producers having a cotton allotment who do not intend to plant cotton in 1976 may release the allotment to the County Committee. Producers wanting to plant cotton may also request an increase in their allotment. April 11 is the deadline for releasing acreage and applying for additional acreage.

Tobacco
The final date to transfer tobacco acreage is June 14. However, growers should attempt to complete their lease and transfer agreements as soon as possible as tobacco designation for sales by markets has been set to begin March 1 and continue through April 2 and leases should be completed before designation. New leases must be executed each year.

The county ASCS office is accepting lease and transfer agreements filed by producers in the county. The agreements may be filed in the county ASCS office on any working day.

The county ASCS office is keeping a list of names of producers who have tobacco to lease and of producers who want more tobacco pounds. Any producers may look at the lists. A producer may place his name on either list by calling or writing the county ASCS office.

The discount variety program for flue-cured tobacco is being continued for the 1976 crop. Farmers will be required to certify whether or not they planted a discount variety of tobacco on their farm prior to insurance of a tobacco marketing card for the farm.

Measurement Service
The following rates will apply for 1976 measurement services. The charge will be \$1.00 per acre plus \$4.00 per farm with a minimum charge per farm of \$11.50. If you want this service please make your application now.

ACP Program
Requests are currently being accepted in the Chowan County ASCS Office for assistance in carrying out needed conservation practices. Interested farmers should visit the office and file their requests before the practice is started.

Farm Loans
Loans are available to farmers under the Farm Storage and Drying Equipment Loan Program to help finance the purchase of approved storage facilities and drying equipment. Farms can borrow up to 70 per cent of the costs of the equipment under these loans. Loans bear interest initially at the rate in effect on the date of disbursement and the interest is subject to adjustment by CCC during the life of the loan. The present interest rate effective October 1, 1975 is 7.5 per cent per annum.

"What are those brown spots on my hands?"

You may think they're just big freckles, or sun spots. Maybe somebody told you they were "liver spots." But they're most likely age spots.
Do you have to put up with age spots?
The answer is no. You can fade age spots with Esoterica Medicated Cream.
Esoterica works because it goes below the skin surface. Esoterica stops excess pigmentation, so the spot fades.
If you use Esoterica daily as directed, you should see a clearer, more youthful-looking skin tone in six weeks.
Fade age spots with Esoterica!
