### ASCS News

**Certification of Acreage**  
Cotton and peanut producers need to report their planted acreage by July 15.

This year growers will be certifying by field, as well as to a total amount.

In planting, farmers should keep several items in mind.

First, if peanut acreage is premeasured, be sure to stay within the premeasurement flags. If peanut acreage is not premeasured, be sure to plant within the acreage allotment for the farm.

Second, allotments in no way restrict the acreage producers may plant to upland cotton. Allotments are used only to determine payments to producers under the disaster and target price provisions. It's important to certify the acreage planted not the allotment.

**Tobacco Growers**  
In 1976, growers are not required to stay within their tobacco allotment. They can plant whatever acreage they need to produce their 1976 quota.

Growers are limited to 110 per cent of their marketing quota in sales. Any poundage sold above this amount will be subject to a marketing quota penalty. Any poundage sold above 100 per cent of the farm quota will be deducted from the 1977 quota.

To be eligible for price support producers must designate a tobacco market and sign a certification that they have not planted a discount variety of tobacco nor used any DDT, TDE, Endrin or Toxaphene.

Growers will not be required to certify tobacco acreage in 1976.

**Disaster Program**  
The normal planting date for corn in March 20 to May 20; cotton April 15 to May 15. Any crop failure during this time must be replanted.

If you have a crop failure after the normal planting period, I suggest you come by the county office and let us discuss your particular case with you before the crop is destroyed.

Be sure to keep this disaster program in mind throughout the year so if your farm is hit by a disaster you'll remember to contact us.

**Basic Farm Data**  
Operators of farms visiting the ASCS office will be asked to verify basic farm data in order that records will be current for program participation. It is important that the records show the current farm owner and operator, their addresses, farmland and cropland acreages, and the identification number for the owner and operator.

**Soybeans**  
Price support loans will be available on the 1976-crop soybeans. Loans on soybeans were not available in 1975.

### Lodge Officers

### Installed Recently

The officers of St. James Lodge No. 8, A.F. & A.M., were recently installed at the Temple in Elizabeth City. Installing officer was Grand Master Ferdinand W. Watson.

Installed were: Larry Brown, Jr., warden; Leroy Stanley, senior warden; Watson; Charlie Downing, senior chaplain and district deputy; William Griffin, secretary; William H. McPherson, senior deacon; Roy Mitchell, worshipful master; Edmond Hoskins, treasurer; Vernon Hinton, Tyler; Theodore Brown, junior deacon; and Sterling Griffin, junior steward.

### FREEZONE IS FOR CORNS THAT HURT.

Why fool around with painful corns, when Freezone can help you remove them. Try it. You'll see. In just days, the corn will be gone... the hurt will be gone. Painlessly. No dangerous cutting. No ugly pads or plasters. Drop on Freezone - take off corns.
