World progress would move faster if people would talk less and work harder.

## Edenton Women Select Peace College

RALEIGH—From large cities and crossroads, from throughout the United States and beyond, thousands of students have attended Peace College since its opening in 1872.

Over the years, Edenton residents have been among the young women studying at the Presbyterian junior college.

This fall four students from Edenton will attend Peace. Classes begin August 25.

The students are sophomore Martha Jo Hollowell, daughter of Mr. and Mrs. William H. Hollowell, Jr., 6 Queen Anne Drive, and freshmen Thelma Goodwin, daughter of Mr. and Mrs. William E. Goodwin, of Route 3; Jean Parrish, daughter of Mr. and Mrs. Carey Y. Parrish, Jr., Route 2; and Kathy Small, daughter of Mr. and Mrs. Vann M. Small Route 2.

The four are joining the ranks of Peace Girls, 6,000 strong, now living around the world. And while many alumnae actively support their alma mater through contributions of time, effort and money channeled through the Peace College Alumnae Association, an even larger number of former Peace students have fond memories of their days at Peace.

"We are fortunate to have so many loyal, supportive alumnae who are interested not only in the past but also in the future of Peace College," commented Mrs. Polly Flowe, director of alumnae affairs.

Peace alumnae from Edenton include Miriam Bissette, Louise Bush, Pansy Alderman Elliott, Geraldine Chambers Fry, Linda Harrell, Miriam Katkaveck, Peggy Nixon, Patricia Ann Parrish, Susan Page Sherin, Katherine Stevens Ward, and Frances McCaskill Ward.

"It is, of course, impossible to list all women in any given area who have been a part of Peace," Mrs. Flowe pointed out. "Unfortunately we lose track of some alumnae. We are always happy to hear from a long-lost alumna who writes or visits to rekindle old memories."

### More Accidents Involving Bicycles Are Anticipated

RALEIGH—Although the number of bicycle accidents has been somewhat constant during the past two years, there is concern that there will be an increase this year. With the emphasis on energy conservation and physical fitness the number of bicyclists using the highways is rapidly increasing. The age of cyclists is also on the rise. In 1975, for example, of the 32 bicyclists killed, 10 were in the age group of 20 to 44.

The increase in the number of bicycles is not the entire problem. The cause for concern according to Patrol Commander, Col. E. W. Jones, is the failure of cyclists to comply with the laws of the state. He said that the bicycles and reflectors are required at night. Additionally, he said certain safety laws are applicable. Riding on the right side of the roadway, complying with stop signs and obeying traffic signals are only a few examples.

Col. Jones stated that the patrol will begin immediately observing bicyclists across the state and when violations are observed appropriate action will be taken by troopers. He said that some citizens may not welcome this approach, but a warning or citation by a trooper today, may enable a cyclist to be alive tomorrow.

### NEWS OF FOOD

Now, one prune juice comes with vitamin C added. This Super Mott's Prune Juice also has an extra amount of prune solids—10 percent more than the United States government requires—so it is said to give more of what we buy prune juice for. This, according to many people, makes it rich in taste and smooth in texture.
