Our Time

There is hardly a week that goes by where we are not called on to promote a special group. Now it is our time. This is National Newspaper Week with the theme: 'Defenders of Freedom of the Press. . . A Mandate from History!

Again we were the target of a resolution adopted by the Soil and Water Conservation District Supervisors. We aren't quite sure we deserve all the kind things Lloyd Bunch, Joe Webb and Fahey Byrum put in it but we have a constant challenge to measure up.

In two more weeks we will have been meandering along the Public Parade for 12 years. During this time we have tried to contribute to the solution rather than be a part of the problem. We can look back to some successes and hopefully, not an equal number of failures.

Where we have succeeded we have had a generous amount of help from a band of citizens who have vision, energy and who are not satisfied with the status quo.

Where we have failed we have faced a generous amount of citizens who thought we didn't have our head screwed on right or who just plain weren't ready for the proposal being promoted.

We have enjoyed working with both groups. Naturally we derived more satisfaction out of the former, but we have gained strength from the school of hard knocks administered by the latter.

But we must move on. In the time in which we live we have to run like the devil just to keep up. If we don't run out of steam we might even get ahead a bit.

And as we tackle the tomorrows we must do so without being shackled by the past. In so doing, there will be times when our judgment is up for question but our motives will always be above

Only in this way as a defender of freedom of the press can we shoulder a mandate from history.

Moving About

They played a little checker game in downtown Edenton in the past week. There was one move and two jumps.

Jack Habit, realtor and insurance executive, moved from the corner of Broad and Queen streets to a renovated building out across from Northside Shopping

Jumping into his vacated suite was John Morehead, a young attorney from Raleigh who was recently admitted to the N. C. Bar in Chowan County Superior Court.

Also in the leap was F. J. Mills, Jr., a certified public accountant. He comes to meander along the Public Parade from the Atlanta. Ga., area and now occupies space in the Habit Building at 102 East Queen Street. The offices were formerly occupied by Albemarle Regional Planning & Development Commission.

A third newcomer to the area is a beauty salon, Edenton Hair Designers, staffed by Anita Ashley, Lois Brabble, Joan Forehand and Sharlie Spruill. Continued On Page 4

Trespassers Must Work

A suspended sentence, fine and work detail were given two young Chowan County men in District Court Tuesday after they entered a plea of guilty to trespassing at Arrowhead Beach.

A spokesman said the arrest of Elbert Layton and Rickey Tynch was brought about because the property owners cooperate with Chowan County Sheriff's Department in the apprehension and prosecution of law violators.

The defendants were given identical sentences of 30 days, suspended upon payment of \$50 fine and costs. In addition, Judge John Chaffin ordered them to report to Alfred M. Howard, president of the Arrowhead Beach Property Owners Association, and work at his direction for six hours during the next two weeks.

Howard testified that the two climbed over a fence enclosing the park area and were arrested. He said there had been considerable vandalism, reckless driving and the like in the area and property owners are cooperating with law enforcement officers to bring it to

Water Available

Water from the county-wide system is now available in every part of Chowan County.

Dallas Jethro, Jr., county coordinator, reports that meters have been installed in the northern section of the county and residents can now hook-up to the system.

He advises that once the hook-up has been completed the Water Department must be notified in order to have the water turned on.

Those who did not pre-sign for water but who live on roads where lines have been installed can tap into the system by contacting the Water Department.

Jethro said progress is being made toward establishing additional wells and treatment facilities in the Rocky Hock section of the county to adequately provide water for expansion of the system north of Edenton. The extra work is being done with grant funds and at no additional cost to the county.

Judge Chaffin gave the defendants a stern lecture before entering the judgments.

In other cases called by Asst. Dist. Atty. Chris Bean, the following action was taken:

Joseph Twine, first apperance for armed robbery.

Junius Alexander Cofield and Edward Earl Leary, speed competition, 12 months, suspended upon payment of \$750 fine and costs. They gave notice of appeal.
