

WORK ON PROJECT — Mrs. Hattie Byrum, left, advisor for the D.F. Walker School Student Council, and two members: Sherod Banks, president, and Tracy Harrell, vice president, are shown working in flower beds to assure that the beauty spots stay beautiful.

Beautification Program

Beauty Spots have been appearing outside and inside of D.F. Walker School as the result of the Student Council's participating in the North Carolina School Beautification Program contest. A cooperative project of Keep North Carolina Beautiful, Inc., the School Beautification Program is designed to encourage students to achieve a better school environment and a greater concern for each other.

Interwoven with the ongoing learning experience, participation in the contest has helped young people to understand local, national, and world problems relating to the resources on which human

life depends. To enter the contest the Walker Student Council members developed a realistic overall beautification plan consisting of immediate and long range plans.

By analyzing problems and working toward their solution, these students have developed a sense of individual responsibility. Through cooperative school efforts, teachers' lounges have been refurbished, windows washed, landscaping and drainage improved, minor repairs made, and a special in-school newspaper on pollution for all students.

An impressive scrapbook of student accomplishments has been sent with the school's narrative designation of beautification achievements and future plans.

Refinishing Specialist Here

By Gladys B. White Home Ec. Ext. Agent Frank Broadnax will visit Chowan County on April 20 from 9:30 A.M. to 11:30 A.M., at the Advance Community Building. Broadnax is an experienced professional furniture refinisher who used the knowledge gained in years of experience to create his own method for reviving old wood finishes.

Broadnax works on a small area at a time, applying the refinisher with fine steel wool. The piece of furniture is then buffed again with 0000 steel wool. Then he will apply a coat of lemon oil.

All those present will be able to buy his refinishing kits after the meeting. Those planning to come may bring a small piece of furniture. He will be able to advise you on how to refinish it. Many people signed up for this lecture-

demonstration for January, which was canceled due to the weather. We hope many other people will take advantage of this demonstration-lecture.

Broadnax will be visiting several other counties in the district during the week. Be sure to find one place you can attend.

If you have questions, please call the Extension office. His schedule for the area is as follows:

April 19 (morning) — Gates County; (afternoon) — Dare County; (evening) — Hyde County.

April 20 — (morning) — Chowan County; (afternoon) — Perquimans County; (evening) — Currituck County.

April 21 (afternoon and evening) Hertford and Bertie counties.
