Peanut Trading Barely Active

Southeastern Section — Demand for Southeastern grown peanuts was moderate during the week ending May 13 but offerings were very limited. Trading was barely active at unchanged prices. Shipments were delayed due to a truck shortage. Dry weather was the rule throughout the Southeast last week. Florida planting was slowed due to dry soils but early plantings made fair progress. Planting in Alabama continued at a slow pace and was about two-thirds complete. The Georgia crop was about 80 per cent planted by May 7 but planting was halted due to the lack of moisture. Some previously planted fields were irrigated to encourage germination but some fields were likely to be lost and would have to be replanted. Prices paid per pound for shelled Runner Type peanuts sold on an FOB shipping point basis for May shipment were: Medium 34½ to 35 cents; and U.S. Splits 28½ to 28¾.

Virginia-North Carolina Section — Demand for Virginia and North Carolina grown peanuts was moderate for light offerings during the week ending May 13. Trading was slow at unchanged prices. Shipments were made as scheduled. Planting was slowed in most areas due to cool weather. Rain mixed with some hail was reported in Virginia. Light amounts of washout occurred in some areas and fields may require replanting. Crop conditions were generally fair to good. Prices paid per pound for Virginia type peanuts sold on an FOB shipping point basis for May shipment were: Unshelled Fancy 36 to 36½ cents; and Shelled Number Two 26¼ to 26½. Other grades were too few sales to quote.

Southwestern Section — demand for Southwestern grown peanuts was moderate for very light supplies during the week ending May 13. Trading was barely active. Prices were unchanged. Shipments were delayed by a truck shortage as truckers hauled the Spring onion crop instead of peanuts. The crop was affected by cool wet weather. South Texas growth was only fair due to heavy rains. Varying amounts of washout were reported and some fields needed replanting. Planting of the Spring crop was delayed by wet soil. Heavy thunderstorms accompanied by hail continued. Plantings were estimated as 75 per cent Runners and 25 per cent Spanish in South Texas. Central Texas and Oklahoma were just getting underway but wet soils delayed planting. Prices paid per pound for peanuts sold on an FOB Shipping point basis for May shipment were: Shelled Spanish Number One 37½ to 37¾ cents; and Jumbos 38 to 38½. Runner and Valencia types as well as other grades of Spanish Type were too few to quote.
