

### Farm Bill Could Bolster Area Peanut Production

By Murray L. Goodwin, Agri. Ext. Agent  
Bobby Smith, assistant federal administrator for ASCS, told peanut farmers at the Peanut Field day last Thursday at Lewiston that peanut farmers can expect a sound peanut program in 1978 if the Farm Bill currently before Congress is passed.

Allotments would be continued as in this past year with about the same support price. A farmer would be allowed to plant additional peanuts with a support price based on world market. This price would be much lower! A poundage system, similar to the tobacco program, would also be involved.

Debbie Jordan, Yeopim 4-H Club member, gave her 4-H Crop Utilization demonstration before about 500 farmers, business men, and agricultural workers.

The demonstration gave the history of peanuts and the story of what happens to peanuts after they leave the farm. She displayed peanut products in 15 packages!

Debbie sat beside Dr. George Hyatt, director of N.C. Extension Service during the meeting. He and many others complimented Debbie on her peanut demonstration. When Mr. Smith began his address he said, "Debbie, I want to compliment you on your fine 4-H demonstration. I certainly learned a lot about peanuts today that I didn't know before."

T.N. Dixon, President of N.C. Peanut Growers Association, presided and gave the President's report.

It was a generally rainy day, but no one complained. The field part of the program was presented under the shelter. Astor Perry, Peanut Specialist presided over the session. Perry predicted an average state yield of 2700 lbs.

Dr. Campbell talked about the new variety N.C. 6. He said that this variety has high level resistance to corn root worm, moderate resistance to Leaf Hoppers, and some resistance to Thrip. N.C. 6 has increased hair on leaves and stronger hulls than conventional varieties.

N.C. 6 will produce about the same income as Florigiant per acre. Insecticide recommendations for N.C. 6 will be lowered to about onehalf of this years rate for 1978.

Campbell told about his field experiment on Ray Byrum's farm in Rocky Hock. This experiment has an untreated border around a treated area. The mites generally did not penetrate this center of the area, even though high level population

were artificially introduced. Dr. Fred Corbin talked about inter-action between different pesticides. Sometimes two different chemicals cause harmful effects when used together, which cause no trouble when used separately.

Astor Perry said that extensive tests have shown that wet Land-plaster and regular Landplater give about same results when equal amounts of calcium sulphate are included.

Early application of Landplaster has been alright in tests. Perry said this may not be true during a very wet year.

John Glover talked about the importance of spreading Landplaster evenly and equipment for doing this.

Agriculture Commissioner Graham welcomed the farmers to the Experiment Station and talked about Aflatoxin.

Womack Lee talked about Storage Available for Peanuts.

#### In Memoriam

In loving memory of my husband Horace M. Nixon, whose death claimed, September 19, 1976:

Your gentle face and patient smile  
With sadness we recall  
You had a kindly word for each  
And died beloved by all.  
The voice is mute and stilled the heart  
That loved us well and true,

Ah, bitter was the trial to part  
From one so good as you,  
You are not forgotten loved one  
Nor will you ever be,  
As long as life and memory last  
We will remember thee.  
We miss you now, our hearts are sore,  
As time goes by we miss you more,  
Your loving smile, your gentle face,  
No one can fill your vacant place.

Wife,  
Edythe B. Nixon and, family

#### Meeting Planned

The regular monthly meeting of the Albemarle Advisory Council on Aging is scheduled for Thursday at 10 A.M. in the Edenton Municipal Building.

A major item of business to be covered will be the council's recommendation of Title V (Multi-Purpose Senior Centers) funding proposals to the State Division of Aging from Region R.

Members are urged to please attend.

This is to express my deepest appreciation to the Edenton Baptist Church and its pastor emeritus, Rev. R. N. Carroll. Also, thanks to Baptist Church members, Mr. and Mrs. Roy Leary, Mrs. Dan Carter, Mr. John M. Elliott, Mr. Reuben Bass and others who helped me in my hour of need.

MAY GOD BLESS EACH AND EVERY ONE OF YOU

J. J. "DUKE" BRASWELL
