

Lung Assoc. Honors Kay Currie Benefit Show Dance Scheduled Proper Packaging Encouraged

Lung Association directors and officers, and professional and volunteer workers from across the state met at the Governor's Mansion for a statewide tea in support of the 1977 Christmas Seal Campaign.

Kay Currie, woman's director of WITN-TV in Washington, Christmas Seal chairman for the Eastern Lung Association, was honored at this tea. Along with her were Mike Gminski, the state's

Christmas Seal campaign chairman, and Bill Dail, State Youth Ambassador and designer of the North Carolina Christmas Seal. Mrs. Currie, Gminski, and Dail were joined in a receiving line by Dr. C. E.

Buckley, III, president of the N.C. Lung Association, and other area campaign chairmen to support the Lung Association's work in the prevention and control of all respiratory diseases.

Fashion Show; Dance Scheduled
The Albemarle Professional Ladies Cosmotologists will host a fashion show and dance Friday at Hillcrest Gardens, five miles south of Hertford. The show begins at 8 P.M. Proceeds will go to the handicapped.

"Why take a chance of dampening someone's holiday spirit by sending poorly wrapped Christmas gifts through the mail," Postmaster James M. Bond asks?

According to Postmaster Bond, customers can be more assured that their gifts will arrive in good condition if the following packaging tips are followed.

A single item in a package should be cushioned with shredded paper, excelsior, compressed tissue paper, cloth, or expanded plastic foam. If two or more items are in the same carton, cushioning material should protect items from contact with each other, and each item should have its own individual inner carton.

PROMOTE SEALS—Kay Currie, Christmas Seal chairman for the Eastern Lung Association, joins with Mike Gminski, state Christmas Seal chairman, Bill Dail, State Youth Ambassador and designer of the N.C. Christmas Seal and Dr. C.E. Buckley, III, president of the N.C. Lung Association, in support of the fight against emphysema, chronic bronchitis, asthma, byssinosis and other lung crippling diseases. The occasion was a Christmas Seal Tea at the Governor's Mansion.

Jewelry Jottings

— by —
R. W. DAVIS

Pure gold is so ductile that one gram (34 thousandths of an ounce) can be drawn into a fine wire about two miles long or beaten into sheets only 4 ten-millionths of an inch thick.

We have many lovely examples of the gold-worker's art in the form of exquisite rings, chains and other jewelry.

These make ideal gifts.
