

# Swain School Projects Goal

"Setting and maintaining high academic standards for students is the ultimate goal of the administrative and teaching staff at Ernest A. Swain Elementary School, affirmed Gil Underwood, Principal, as he referred to a positive plan for recognizing students who make good grades. "Placing stricter emphasis on higher academic achievement has also met with favorable approval from parents," added Underwood, who is serving his first year as Swain principal.

Only eight out of 380 students at E.A. Swain School made the "A" Honor Roll during the last six weeks grading period. To be on the "A" list, students must maintain a 93-100 average in each subject, and

not as an overall average. Swain students reaching this goal during the last grading period included Susan Elks, Jimmy Harris, Terry Johnson, Jennifer Ledford, Ben Rinehart, Matthew Sopher, Karen Stalls, and Sheila Wiley.

Being "Principal For a Day" is the method chosen by Swain students to honor all students who make the "A" Honor Roll in each six weeks grading period. Other options included longer physical education, lunch, or break periods. As "principal," each honoree serves in the capacity of principal for one hour. Their responsibilities include running errands, receiving telephone calls, conducting fire drills, talking with parents, observing classes, and signing students in and

out of school. "With teachers placing increased emphasis on achievement, getting the "A" really means that the student has performed "A" work," Underwood stated. He further added that he felt more students will be on the "A" Honor Roll at the end of the second grading period, which ended November 23rd. "Teachers have indicated that a number of students have really been working hard to pull up their grades and to keep the good grades previously made," noted Mr. Underwood.

Report cards will be sent home on December 6th.

**RALEIGH** — Commerce Secretary D.M. (Lauch) Faircloth today announced that the Department's Energy Division has received a \$475,000 grant from the U.S. Department of Energy to weatherize the homes of over 1,000 qualifying low-income, handicapped, and elderly North Carolinians this winter.

Brian Flattery, Director of the Energy Division, said that the Division and the State Equal Opportunity Office will jointly administer these funds. They will be used to purchase up to \$400 of weatherization materials for each home, including insulation, weatherstripping, storm windows and doors.

Flattery added that after weatherization, each home could realize a 20 per cent fuel savings. The Energy Division also expects to receive approximately \$1 million for fiscal 1978 to weatherize an additional 2,000 homes, he noted.
