

Budget-Stretching Tips

Getting the best value for your food dollar may become more of a challenge each week.

But there's some budget-stretching tips as close as your telephone, says Gladys B. White, extension home economics agent, Chowan County.

The "sacredness and quietness" of our Beaver Hill Cemetery doesn't need the intrusion of a highway connecting Ocean Highway Number 17 at Twiddy Avenue, with privately owned real estate near Virginia Road. A connecting link would necessitate the crossing of the cemetery, the Potter's Field, the Beaver Dam.

The story of the cemetery is like this: In 1880, Edenton's greatest benefactor, Mr. J.W. Branning, came to Edenton to set up a great lumber mill complex which would give jobs to Edenton's citizenry, then still on its knees as a result of the civil war. He bought all of the land from what is now "Pembroke Circle" to the old Fish Hatchery, and from John's Island to the Beaver Dam near the Virginia Road. Realizing that the town did not have a large cemetery, other than the Episcopal Church, he set aside a portion of his land beside the Beaver Dam for use as a cemetery, aided by a group of ladies known as the Beaver Hill Cemetery Association. The duty of this organization was to sell lots and to collect fees for maintenance of the cemetery. As the years passed the job became too much for the corporation or the organization, and the town was asked to take over the maintenance of the cemetery.

Since knowing the above history, I doubt anyone would agree that the town has the right to run a highway connection through Beaver Hill Cemetery. Anyway, our citizens should attend the Town Council meeting Tuesday to hear the discussion of the matter.

Thank you,
Mrs. Raymond Carr
