Fall Tobacco Lease and Transfer Program: Farmers may lease and transfer tobacco poundage through November 30th if certain requirements are met. Eligibility for leasing includes planting between 80 per cent and 100 per cent of the farms effective allotment. Tobacco acreage will be measured on farms involved in transferring poundage. An estimate of production will be made to determine the need for transferring poundage.

1980 Wheat Update: Secretary of Agriculture Bob Bergland has announced the following provisions for the 1980 Wheat Program: —U. S. wheat producers will be eligible for farm program benefits in 1980 without setting aside or diverting acreage. —The 1980 wheat loan rate will be \$2.50 a bushel, up 15 cents from the rate in effect the past two years.

—Administrative or legislative steps will be taken to discourage planting wheat on fragile land. Non-Grazing Period: Farmers participating in the 1979 Feed Grain Program are reminded that the non-grazing period for set-aside continues through September 30.

Update Farm Basic Data: Any changes in farm operators or ownership should be reported to the county ASCS office.
