

Dr. Brewster Speaks To Physicians

The Northeastern North Carolina Professional Standards Review Organization (NENC PSRO) held its annual meeting in Morehead City this year. The NENC PSRO is a non-profit corporation of physicians who monitor the quality and necessity of medical care delivered to 52,000 Medicare, Medicaid, and Title V patients. The NENC PSRO functions in 19 acute care hospitals within 26 counties in eastern North Carolina.

The guest speaker at this year's meeting was Dr. Alan Brewster, of Massachusetts. He is a nationally recognized expert on

Medical Care Evaluation Studies. He spoke to the general membership of the organization.

During a luncheon that followed, the newly-elected members of the Board of Directors were announced. They were Dr. Marshall S. Redding, of Elizabeth City; Dr. Walter Sabiston of Kinston; Dr. John Way, Morehead City; Dr. Joseph Weaver of Ahoskie; and Dr. Jack Wilkerson, of Greenville.

The Board of Directors held a meeting to discuss the highlights of last year's efforts and the goals for the coming year. The Board of Directors elected Dr. Ed-

ward G. Bond, of Edenton as president; Dr. Redding as vice-president; and Dr. Robert F. Barbe, of Tarboro as secretary-treasurer.

Program

RALEIGH — Meredith College will offer a three-month post-baccalaureate lawyer's assistant program beginning May, 1980. Dr. Sarah M. Lemmon, Dean of the Office of Continuing Education and Special Programs at the women's college, has announced.

The program will be directed by Emily P. Johnson of Greenville. Miss Johnson, a Meredith alumna, received the J.D. degree from the University of North Carolina at Chapel Hill.

"To the best of our knowledge, this is the only post-baccalaureate lawyer's assistant program between Philadelphia and Atlanta," Dr. Lemmon said. "We believe that we are meeting a definite need for career women interested in law but not interested in attending law school at this time," she said.

She will concentrate on developing the curriculum and staff this fall. Applications for the first class, which will not exceed 30 women, will be accepted beginning January, 1980. Only women with baccalaureate degrees will be considered for entry.

For further information or application, contact the Office of Continuing Education and Special Programs, Meredith College, Raleigh, N.C. (919) 833-6461, ext. 353.

ECHSA Agenda

Details Are Revealed

The project review committee of the Eastern Carolina Health Systems Agency (EDHSA) will meet October 25 at 7 P.M. at the Willis Building, First and Reade Streets, Greenville.

Agenda items will include discussion of the following projects: Onslow Memorial Hospital - Data Processing System; Rowan Manor Nursing Center - Lease of Washington Health Care Center; and Outer Banks Health Care Center - Continuation application.

For additional information in project reviews, contact the Director of Project Review, ECHSA, P.O. Box 7306, Greenville, N.C. 27834; (919) 758-1372.

The public is invited to attend this meeting.

Completes Training

FORT KNOX, Ky. — Pvt. William K. Hunt, son of Mr. and Mrs. William R. Hunt, Roper, N.C., recently completed basic training at Fort Knox, Ky.

During the training, students received instruction in drill and ceremonies, weapons, map reading, tactics, military courtesy, military justice, first aid, and Army history and traditions.

Hang handbags and belts from large shower curtain hooks on closet rods.

GIVES 4-H DEMONSTRATION — Eliot Atstupenas of Edenton gave his 4-H Wildlife demonstration September 28 during the 34th annual N. C. Wildlife Federation Convention in Raleigh. He is shown with Wildlife Federation President Bryan Upchurch of Raleigh, left, and Lt. Gov. James C. Green after his presentation at the Governor's Conservation Achievement Awards Banquet. Atstupenas, 16-year-old son of Mr. and Mrs. Elliott Atstupenas, gave his demonstration on the production of striped bass at the National Fish Hatchery at Edenton. He won state honors in the 4-H Wildlife demonstration contest earlier this year and received a \$50 savings bond from the N.C. Wildlife Resources Commission.

FOR DEPENDABILITY, PERFORMANCE AND DURABILITY COUNT ON THE 1580

When you've got 67 years of building peanut harvesting equipment behind you, you pretty well know what you're doing. The Lilliston 1580 is a prime example.

There are 5900 pounds of clean harvesting performance here—a lot less weight than you'll find on other makes. Here, too, is the exclusive separator system which adjusts to a wide range of field conditions.

Every pound's working for you. There's none of that dead weight that only builds up costs. Yet it brings in a payload as big as any thing else in its class.

And it's a true Lilliston—built to run hard and run long. Steel channel framing, for instance, gives the 1580 extra strength, reducing the metal fatigue that's the big factor in long performance.

It's all here in the Lilliston 1580. This is some lean machine.

ALL YOURS IN THE 1580:

- Lilliston's exclusive Separator System—the best there is.
- A special Camless Pick-up that runs quiet, smooth and is very easy to maintain.
- Three pick-up drive sprockets, 12 available pick-up speeds.
- Six dirt removal components to deliver you a clean, high-grade harvest.
- Wide 66" pick-up takes in the largest windrows.

Bart Wood Heating Systems: Better Quality. Less Money.

Saves you up to 70% on your heating bills.
8200 Model heats up to 2,500 square feet. . . extracts up to 80% of available energy from the wood.
Doors are removable, and a clip-on screen and variable speed blower control are included at no extra cost.

Compare Bart with any other woodstove or heating system available. You'll find Bart wood heating systems offer you better quality, better features. . . and a lower price.

Our unique automated manufacturing process, with its stringent quality control, insures a consistently superior finished product at a lower cost.

We use only the best boilerplate steel in our double wall construction. . . and our handsome doors won't warp the way those on some other woodstoves do.

All electrical components are the finest available. Our patented 650 CFM blower is the only fan on the market specifically designed for use in a wood heating system, and can withstand temperatures over 800° F. What's more, it delivers twice as much hot air as any wood heater available.

Bart heating systems are attractive and easily installed in existing fireplaces. They're also available in free standing models.
