

Yuletide Workshop Slated

ELIZABETH CITY — The N. C. Museum of History Associates will sponsor a Williamsburg Yuletide Arrangements Workshop on November 5 at the N. C. Museum of History Northeastern Museum Service Branch, the Museum of the Albemarle, U. S. 17-South, Elizabeth City, at 10 A.M. Instructor Virginia Johnson of Raleigh will demonstrate arrangements of berries, nuts, cones and fruits for Christmas tables, halls, sideboards, mantels and doors. Mrs. Johnson taught a similar workshop at the State Museum of History in Raleigh last year and has won many blue ribbons for her garden club efforts.

Included in her demonstration with natural materials will be the symbol of colonial hospitality, shiny towering apple and lemon trees topped with a pineapple. A drawing will net some lucky students with the sample decorations to take home.

The workshop will begin at 10 A.M. with coffee and refreshments. The demonstration will continue until approximately 1:30 P.M. and participants are invited to bring a sandwich for lunch. Drinks and dessert will be provided. There is no charge for the workshop for members of the N. C. Museum of History Associates, but reservations must be made because space is limited. Cost of the workshop for non-members

of the associates is \$8 per person.

To register for the November 5 workshop call or write Museum of the Albemarle, U. S. 17 South, Route 6, Elizabeth City, N. C. 27801, (919) 335-1453. Checks for non-members should be made payable to the North Carolina Museum of History Associates.

The Museum Associates is a statewide volunteer and financial support group for the Museum of History, its Northeastern Museum Service Branch, the Museum of the Albemarle, and the 23 state historic sites. Museum of the Albemarle Trustees voted to become a part of the associates organization when the 1979 General Assembly approved funds to establish the Museum of the Albemarle as the first regional branch of the Museum of History.

Museum Associates memberships begin at \$15 for individual members and may be obtained by calling or writing the Museum of the Albemarle. Members receive advance notice of lecture series, workshops, and other events at the museum; invitations to exhibit preview receptions; discounts; and special tours. Membership fees are used to purchase North Carolina artifacts and for educational programs.

The black rhinoceros cow bears only one calf about every three years, and both parents guard it jealously.

LEADER CHOSEN — Sen. Robert Morgan (D-N.C.) and Sen. John Stennis (D-Miss.) look over material on Army recruiting in the latter's office. Stennis, Chairman of the Senate Armed Services Committee, asked Morgan to serve on a subcommittee that will hold hearings on recruiting practices. Morgan is a member of the Armed Services Committee.

Co-Chairs Committee

WASHINGTON, D.C. — A Senate Armed Services Subcommittee, which will be co-chaired by Sen. Robert Morgan of North Carolina and Sen. Sam Nunn of Georgia, will begin hearings soon on alleged malpractices in the Army's recruiting program.

No date has been set yet for the hearings, which will be held in Washington and possibly in North Carolina.

In recent months, the Army has relieved 162 recruiters and three officers for recruiting abuses. It has been alleged that recruiters, in order to meet quotas assigned them, have coached enlistees on entrance tests in order to get them admitted into the Armed Forces.

Some of the recruiters

who have been relieved face court martial and some have admitted cheating in order to get unqualified men into the service.

Morgan, who has been studying the matter for several months, has accused Army brass of forcing recruiters to cheat to meet quotas for the all volunteer Army.

The Army, which denied last year that anything was wrong, now says it is conducting its own investigation, which has extended to all parts of the United States.

Draft Supplement Plans Are Released

WILMINGTON — Design changes and right-of-way needs are among the subjects of a draft supplement to the environmental impact statement about stabilizing Oregon Inlet with jetties and expanding the navigation channel through the inlet to Wanchese Harbor.

The U. S. Army Corps of Engineers has prepared and circulated the document in consultation with the Fish and Wildlife Service and National Park Service. There has been a congressional allocation of \$2-million to start construction during the current fiscal year.

The corps has made two significant design changes during advance engineering and design work:

ensure that the current is directed through the navigation opening of Bonner Bridge. The jetty anchor sections on the beach will allow overwash, yet prevent the opening of a new inlet immediately adjacent to Oregon Inlet. It will remain possible for storms to breach the shore elsewhere, but jetty construction will establish a hydraulically efficient channel through Oregon Inlet and reduce the possibilities of a new inlet remaining open.

The other has been to eliminate the doors midway through each of the jetties. These were to have provided a dredge with easy access to the near shore area in order to bypass sand across the inlet but swift currents have made them impractical. Current plans are to have the dredge move to the near shore area under the protection of a floating

breakwater.

The corps has found that the combination of jetties and sand bypassing will reduce and perhaps eliminate erosion along three miles of beach on both sides of the inlet. It will be necessary to bypass sand across the inlet periodically to prevent the accumulation of too much sand along one side of the inlet to the detriment of the other.

Jetty construction will also require the permanent use of 18.8 acres to anchor the north jetty on National Park Service lands on Bodie Island. Much of the land section of the jetty will eventually be covered with sand through natural processes. Another 42.7 acres will be needed during

jetty construction and 61.5 acres are to be the right-of-way associated with sand bypassing.

About 4.4 acres of Fish and Wildlife Service lands at Pea Island will be required to anchor the south jetty, 19.6 acres will be needed during construction and 20.5 acres will be associated with sand bypassing operations.

Other subjects in the supplement include the impacts of the jetties on recreation and management of the Cape Hatteras National Seashore, the establishment of wetlands for oyster reef production and a program to manage dredge disposal islands as nesting sites for migratory seabirds.

Jones Announces Grant

Rep. Walter B. Jones has announced the approval by the Heritage Conservation and Recreation Service of a grant of \$15,000 to the N. C. Department of Cultural Resources for the restoration of the Newbold-White House near Hertford. The state will contribute

\$20,400 to the project, for a total of \$35,400.

The Newbold-White House is perhaps the earliest extant building in the state, and the objective of this project is to restore it to its pre-Georgian appearance and to open it to the public as a historic house museum.

Facts About The BIBLE BY JOHN LEHTI

THE BIBLE HAS BEEN THE WORLD'S "BEST SELLER" FOR MANY YEARS. ONE CAN TRAVEL TO THE FAR CORNERS OF THE EARTH AND STILL FIND A COPY OF THE BIBLE WAITING FOR HIM THERE. IT HAS BEEN TRANSLATED INTO 195 DIFFERENT LANGUAGES AND MILLIONS OF COPIES ARE SOLD EACH YEAR. IN A SINGLE YEAR, ENOUGH COPIES ARE DISTRIBUTED TO AVERAGE 47 FOR EVERY MINUTE OF EVERY HOUR, NIGHT AND DAY. WITH SO MANY EDITIONS AND SO MANY PRINTINGS OF THIS GREAT BOOK, OVER THE YEARS, SMALL WONDER THAT THERE HAVE BEEN OCCASIONAL ERRORS MADE IN ITS PRINTING! HERE ARE A FEW:

THE BREECHES BIBLE: IN 1560 AN EDITION OF THE BIBLE SAID ADAM AND EVE "SEWED FIG LEAVES TOGETHER AND MADE THEMSELVES BREECHES."

THE VINEGAR BIBLE: IN 1717, AN EDITION HAD THE 20TH CHAPTER OF LUKE HEADED AS "THE PARABLE OF THE VINEGAR" INSTEAD OF "VINEYARD."

THE WICKED BIBLE: IN 1631, A PRINTER WAS FINED 300 POUNDS BECAUSE HE LEFT OUT "NOT" IN ONE OF THE TEN COMMANDMENTS SO THAT IT APPEARED IN EXODUS 20:14 "THOU SHALT COMMIT ADULTERY!"

THE TREACLE BIBLE: AN EDITION IN 1568 HAD JEREMIAH 8:22 READING "IS THERE NO TREACLE IN GILEAD" INSTEAD OF "BALM."

THE PRINTERS BIBLE: IN 1702 THE 119TH PSALM, VERSE 161, READ "PRINTERS HAVE PERSECUTED ME WITHOUT CAUSE" INSTEAD OF "PRINCES."

NOTWITHSTANDING THE ERRORS, THE BIBLE, IN THE THOUSANDS OF EDITIONS PUBLISHED AND THE MANY MILLIONS OF COPIES THAT HAVE BEEN DISTRIBUTED, CONTINUES TO BRING TO HUMANITY THE SPIRITUAL AND MORAL VALUES SO NEEDED BY THE WORLD AT LARGE!

NEXT WEEK: WOMEN'S LIB IN THE BIBLE?!
