

Hospital Requests New X-Ray Equipment

David L. Henson, Director of Chowan Hospital, Inc., Edenton, filed notice on April 17, 1980 of intent to incur a capital expenditure for the purpose of leasing replacement x-ray equipment. The equipment is scheduled to become operational in September, 1980 and is estimated to cost \$138,950.

The project proposal has been submitted to the

Certificate of Need Section, Division of Facility Services, North Carolina Department of Human Resources, for review by planning agencies under provisions of the Social Security Amendments of 1972.

The planning agencies, in examining the proposal, will seek to determine whether the project is needed, if it

can be adequately staffed and operated, whether it is economically feasible within prevailing rate structures, and if it proposes specific cost-containment features.

Copies of the proposal have been referred to the Eastern Carolina Health Systems Agency, Inc., Greenville, NC, for review as required by federal law. In its role as coordinator

of project reviews under Section 1122 of the Social Security Act, the Certificate of Need Section will receive the advice of the State and regional agencies about the conformity of the project to their standards and criteria.

The Department will then decide on the recommendation to be made to the U. S. Department of Health and Human Services concerning the project.

Letter To The Editor: Intergration Study Conducted

Dear Sir:

Last year I undertook a personal effort to determine the level of intergration at our Baptist schools in North Carolina. This was the first and possibly the last survey of human rights at these institutions.

This survey showed the level of student intergration at Chowan, Wingate and Gardner-Webb were progressive; Meredith, Campbell and Wake-Forest were low and Mars-Hill was in the middle.

Eleven black faculty were employed at all seven schools. Two schools, Campbell and Chowan, had no black faculty even though Chowan is the most intergrated of the seven schools.

Only one black, Howard Lee at Wake Forest, has ever served as a school trustee. At present trustees must be members of Baptist State Convention churches,

which are almost all white. This requirement was relaxed for Wake-Forest last year and I feel it should be relaxed for our other institutions also. This would allow minority representation.

However, each school does have an advisory board that is chosen and controlled by each school. Out of 399 persons serving at all seven schools only two were black persons. Wake Forest and Gardner-Webb are to be commended for having these. I feel this shows that there has been very little effort made by our schools to seek minority input at the decision making level.

Was this the last intergration survey? All schools, except Wake-Forest and Gardner-Webb, have refused to supply the same information now they freely gave last year. They say any additional information must come from

the Council On Christian Higher Education, this council is our Baptist School Board in North Carolina. The Council says no information will be released unless the Executive Committee or the General Board of our Convention request it.

The Council will meet at Gardner-Webb College in May. I plan to ask the Council to reconsider this ban on pertinent Baptist information.

Harrill Jones

Gastonia, N.C. 28052

Study To Be Conducted

The federal Office of Coastal Zone Management (OCZM) will conduct its annual evaluation of the North Carolina Coastal Management program the week of April 28. In conjunction with the evaluation, OCZM will hold a public meeting on April 30 in Wilmington at the New Hanover County Administrative Building, Commissioner's Assembly Room, 320 Chestnut St., from 7 to 10 p.m.

NW, Washington, D. C., 20235. Written comments will be accepted until May 2.

The purpose of the evaluation is to determine the state's progress in carrying out its work program and meeting the objectives of the national Coastal Zone Management Act. Adequate progress must be found before the state can receive additional federal funds for coastal program administration.

Organizations or individuals wishing to present comments on the state's coastal management activities are welcome. In the event attendance is not possible, written comments should be directed to Richard White, Office of Coastal Zone Management, 3300 Whitehaven Street,

The Arabian horse, believed to be the first true domesticated breed, developed in Mesopotamia and North Africa.
