**CRAFTS FAIR**—Pictured left to right are: Hettie Wallace, BPW President; Fran Ward, home economics extension agent; and Alice Perry, chairman of crafts demonstrations, as they make plans for the Teaparty Celebration Crafts Fair to be held Oct. 24, on the Courthouse Green. Demonstrations will be held from 10 A. M. - 5:30 P. M. with sales at the "Yankee Peddler."

## Tea Party Celebration To Feature Crafts

Crafts demonstrations on the courthouse green will be a featured attraction of the 207th Anniversary of the Edenton Tea Party. Mrs. Alice Perry, chairman of the crafts demonstrations, reports that 29 craftsmen

are planning to participate. Pottery, weaving, hand dipped candles and woodworking are among the crafts to be demonstrated. Needlecrafts will include candlewicking, a very old craft that is currently receiving revived interest. The Extension Homemaker Clubs are in charge of the crafts demonstrations.

Crafts and other homemade items will be sold at the "Yankee Peddler." The Edenton Business and Professional Women's Club is handling the Yankee Peddler with Hettie Wallace, club president, and Fran Ward coordinating the sales area. Homemade jellies, jams, pickles, breads, etc. are being solicited for this booth. Proceeds will go to

Historic Edenton. Anyone desiring to donate a homemade item should contact Fran Ward at the Chowan Extension Office (482-8431) or Hettie Wallace at Edenton Tractor Company (482-4476).

Demonstrations will begin at 10 A. M. and run until 5:30 P. M.

Don't miss the crafts demonstrations "On the Green" this Saturday.

**OPTOMETRIST**

**A Message From Your Eyes**

Your eyes are much more than a "window to the world". They can tell your eye doctor a lot about your general health.

When the optometrist examines your eyes for the first time, he'll ask for a medical history. He'll want to know what kind of diseases you've had or about any impaired physical condition. There are a lot of illness that affect your eyes. High blood pressure is one. Diabetes or any diseases of the blood are others.

Many diseases show telltale signs in an eye examination. They may change the color of the whites of your eyes or cause them to swell up or become inflamed.

Discovered early enough, prompt treatment can cure many diseases or keep them under control.

The eye doctor will also want to know what kind of work you do at home or on the job, any kind of activity that makes seeing particularly important; also what kinds of sports you enjoy.

All of these things are important in determining exactly what type of glasses or contact lenses, if needed, are best for you.
