

Peele Receives Funds From Sea Grant Program

ATHENS, Ga. — Three marine studies and research students are engaged in the University of Georgia with the aid of Sea Grant Program Fellowships.

The Fellowship recipients are Janice Hambrick, of Jonesboro, Ga. a senior

majoring in food science; Emily R. Peele of Edenton, a doctoral student in microbiology; and Jennifer M. Smith of Wheaton, Ill., a doctoral student in geology. Miss Hambrick received a \$3,600 undergraduate fellowship and Miss Peele

and Miss Smith received \$5,850 graduate fellowships. This is the third year Miss Hambrick has received Sea Grant support. The awards are for three quarters of study.

The University of Georgia Sea Grant Program is part

of the National Sea Grant Program established by Congress in 1966 to foster wise use of America's marine resources through research, education and advisory services.

Last year, the University of Georgia became only the 15th institution in the country to be designated a Sea Grant College. This designation is given to institutions whose Sea Grant Program excels in all phases of research, educational and advisory activities.

The university's Sea Grant Program, which began in 1971, includes projects in such areas as marsh ecology, seafood processing, shrimping gear research and a variety of educational efforts.

Miss Peele graduated cum laude with a bachelor's degree in biology from the University of North Carolina at Greensboro and received a certificate in medical technology from Duke University School of

Holmes Concert Choir To Perform For DAR

The John A. Holmes Concert Choir, under the direction of Mrs. Shelby Strother, will give a program of Christmas music for the Edenton Tea Party Chapter, DAR, at its monthly meeting at the Edenton Restaurant on December 9, at 1 P. M. The Concert Choir has 38 voices and was organized by Mrs. Strother in 1975 when she joined the faculty of John A. Holmes High School.

Mrs. Strother is a native

of Rose Hill and a graduate of ECU with a degree in Music Education. She holds a masters degree in Supervision of Music Education from Appalachian State University. She has taught in the Atlanta city schools as well as North Carolina public schools in Wilmington, Snow Hill and Boone. She also taught a Caldwell Community College in Lenoir for two years before coming to Edenton.

RECEIVES FELLOWSHIP — Miss Emily Peele of Chowan County, left, is recipient of a Sea Grant Fellowship at the University of Georgia. Pictured with her and UGA. President Fred Davidson are Jennifer Smith and Janice Hambrick.

PACE Opposes Legislation To Increase Legislative Terms

RALEIGH — The Political Action Committee for Education (PACE) will work to defeat the State Constitutional Amendment that would allow four-year terms for legislators.

PACE, which is the political action arm of the North Carolina Association of Educators was directed by the NCAE Board of Directors during the Board's November meeting to mount a campaign against the amendment.

The amendment will be before voters in the May primary.

"This amendment is an attempt by the small group now running the General Assembly to further remove themselves from accountability to the people," said NCAE President John I. Wilson of Raleigh.

"The last two sessions of the General Assembly have demonstrated beyond a shadow of a doubt that we need more accountability and not less. When a handful of men elected by individual districts can put horses ahead of children for the whole state, the voters need

an early opportunity to express their views on that," Wilson said.

NCAE through PACE will begin organizing teachers in every precinct to defeat this amendment, Wilson said.

He said he is extremely pleased that many other groups also are opposing the four-year term. NCAE and PACE will join with other groups to form a coalition against the proposed change.

"Close accountability to the voters is the reason the U. S. Constitution limits the terms of U. S. Representatives to only two years," Wilson continued. "The fact that lawmakers must face the voters often makes them more responsive and responsible than they would be with four-year terms."

"The idea that the citizenry should feel sorry for lawmakers because they have to run for office every two years is misplaced," Wilson added. "Service in the General Assembly is a privilege and a public trust and the voters deserve frequent opportunities to evaluate the service."

Waste Management Board To Meet

RALEIGH — The first meeting of the Governor's Waste Management Board will be held on December 9, beginning at 9:30 A.M., board Chairman Claud

(Buck) O'Shields has announced. He said the meeting will be held at the Albert Coates Local Government Center, 215 North Dawson Street,

Raleigh. The Waste Management Board was created in June by the General Assembly, at the urging of Gov. James B. Hunt, Jr., to develop a long-range program for safely managing North Carolina's hazardous and low-level radioactive wastes.

The board's 15 members include representatives from city and county government; higher education; industry; the legislature; the departments of Human Resources, Natural Resources and Community Development, Agriculture, Crime Control and Public Safety, and Commerce; and the general public.

O'Shields said the December 9 meeting will give members an opportunity to review the functions and authority of the board, and to set goals and objectives for the future. He said Governor Hunt is scheduled to attend.
