# Letter To The Editor: Council's Attitude Deplored

surround us today. We must

entrust the welfare and

progress of this community

to farsighted leaders and

I just returned from witnessing an event that brought tears to my eyes for two distinct, yet closely related, reasons. The first is Allen Hornthal who resigned from the Town Council tonight after seven years of serving our community. The second has to do with one of the most astounding displays of misuse of public funds ever recorded in the annals of local government

Following yet another tie vote, Mayor Roy Harrell cast the deciding vote to refund a portion of the Vepco rebate equally, at a rate of \$50.00 per customer to all residential users. It made no difference if your bill was \$20.00 per month or \$200.00 per month, each user got the same \$50.00. It made no difference if you received a subsidy from the government or paid for your consumption totally from your earnings, you got the same \$50.00.

Noticeably exempt from the rebate were all businesses which use the greatest amount of electricity, provide the jobs, and "the unyielding machine" 

pay a high percentage of the taxes that enable this community to function.
They were told by the Mayor and Steve Hampton that \$50.00 would make no difference to them without any apparent awareness of the principle being violated.

One must again ask, how long are the citizens of this town going to tolerate a government that is committed to self service and power, rather than to the betterment of the community and equal treatment of its taxpayers? Outside of Washingtion, I have never seen a more clear cut demonstration of the redistribution of wealth as what took place tonight, with political overtones so blatent even the most naive observer had to chuckle in

Allen Hornthal, upon seeing this action take place before a packed meeting where no citizen was allowed to voice his opinion saturation

on the rebate issue, reached point whereupon he conceded his seat. Yet another dedicated public servant pushed out by

Electricities Board at the state level, but is appointed to the Tree Committee in his own community? Isn't it equally strange to have the Mayor refuse his request to serve on other committees that have a more direct bearing on the effectiveness of our local government to which he can lend his insight based only on his own experience here in Edenton, but also from his ties to the above mentioned organizations? We can't afford to lose another person of this caliber, but we have. This is sad folks! How

long will we let the list continue to grow? Who is to blame? Are not we, the voters, responsible for our own fate? I appeal to your intelligence and just plain common sense to identify and get behind a movement that will overturn the iron grip of machine politics and elect people who will once again put service above self.

Status quo will not survive The total amount of tea Americans drink is only one-tenth of the amount of coffee that gets drunk

years. Again, the decision is

PROMOTES TOURISM - Hope Tyndall, publications editor of the Travel and Tourism Division of the N. C. Department of Commerce, addressed the monthly meeting of the Albemarle Area Development Association (AADA) recently at Soundview Restaurant in Washington County. Tyndall pointed out to Albemarle leaders and Chamber of Commerce officers present that tourism is the 3rd largest industry in the state, representing \$2.6-billion in 1981. AADA has undertaken as a major program to promote tourism in the 10-county Albemarle Area it represents. Also shown are AADA president C. B. Smith, left, of Edenton, and vice president Bill Meekins of Elizabeth City
