Letter To The Editor

Continued From Page 7-A

We are mindful too that there are communities near Edenton such as Cape Colony, Country Club Drive, or portions of Coke Avenue who are now on city electricity but who are not now on city sewage.

These areas may be reluctant to forego their refund even for a "good cause" such as improvements in city sewage. After all they do not have a vote when municipal elections are held.

But in summary we recommend the following:
 a) That the residential refund of February 9th be rescinded,
 b) That SCADA be implemented

c) That all monies be held in trust on deposit and that no refunds be given. Furthermore that when the time comes to implement improvements in city sewage these improvements include areas such as Coke Avenue, Cape Colony, Country Club Drive, Highway 32 immediately north of Edenton, etc., so that as closely as possible all who receive city electricity may receive city sewage treatment too.

d) That if council does not adopt option C that after purchasing SCADA it should refund the balance of the money proportionally to all Edenton utility users based as much as possible on their rate of usage.

Thank you for your thoughtful consideration of these matters.
