Letter To The Editor

Dear Editor:
 Love, loyalty, dignity - how does one describe these words?

They were well defined on February 22 at the special Convocation honoring President Bruce E. Whitaker, president of Chowan College for 25 years. They gathered from across the state - officials in higher education, government representatives, leaders in the Baptist State Convention; they came from Murfreesboro and nearby communities - trustees, advisors, alumni, faculty and staff, and friends from churches - not only to pay tribute to a great leader, but to give thanks for the work and blessings of

Midget Boys Allstars:
 The midget boys were defeated by Elizabeth City, Feb. 26 in Hertford by a score of 48-22. Tony White was the leading scorer for Edenton with seven pts.

Men's Allstars:
 The Edenton men's allstar team will play Perquimans Thursday, March 4 at 7:30 in Edenton. The public is invited to attend.

Chowan College. Undergirding this was the great student body which brought zest and enthusiasm (which every gathering needs) to the occasion.

It was Dr. Whitaker's Day; it was also a day which belonged to the people of Northeastern North Carolina.

Sincerely,
 Grace Yow,
 Administrative Asst.
 Council on Christian Higher Education

Commercial Fishing

The proposed user-pay program being considered by the U.S. Department of Transportation for the U.S. Coast Guard would be detrimental to the entire fishing industry, including sport fishermen, according to Jerry Gaskill, chairman, N. C. Marine Fisheries Commission.

The proposed minimum annual fee of \$1,350 for commercial fishing vessels, \$50 for recreational vessels less than 16 feet, and \$600 for recreational vessels over 65 feet, is highly unreasonable and unjust, he said.

It is well documented, he said, that commercial fishing operations are loaded with extremely serious economic conditions with absolutely no indications of any improvements in the foreseeable future.

Hunt Commended For Support Of Drainage Program

The N.C. Wildlife Federation and the National Wildlife Federation joined to commend Gov. James B. Hunt, Jr., for his expression of support for the Section 404 wetland drainage program. The Section 404 program requires the U.S. Army Corps of Engineers to consider environmental factors before issuing permits to dredge or fill wetlands and convert them to other uses.

In a letter to Michael Mann, executive vice

president of the N.C. Wildlife Federation, Gov. Hunt said "the State of North Carolina is fully supportive of the purposes of Section 404 and has no desire to weaken it." In the past decade thousands of acres of wetlands in coastal North Carolina have been converted to agriculture. Mann pointed out that the N.C. Division of Marine Fisheries research has identified runoff from agricultural operations as a major cause

of a sharp decline in the catches of shrimp and other fish in coastal waters. Mann stated that "while agriculture is the single most important industry in eastern North Carolina and must continue to provide a strong economic base for that region of the state, the development of new farm land must be approached in such a way so as not to damage or weaken the productivity of the commercial and sport fishing industries, both of which are

also vital to the economy of eastern North Carolina." Derb S. Carter, attorney for the National Wildlife Federation office in Raleigh noted that the only state program with the potential to control the conversion of wetlands, the Coastal Area Management Program, exempts agriculture. He concluded that "this has left the Corps of Engineers through Section 404 to hold the line. Maintenance of our coastal water quality will require the cooperative

efforts of local, state and federal governments. The Governor's expression of support for the 404 program shows a concern for our coastal water quality and the fishing, recreation and tourist industries our wetlands support."

Herring has twice the calcium content of milk.

THERE'S A LOT OF NEWS IN OLDS TODAY

ANNOUNCING FIRENZA!

Firenza is what a small car can be... when it's an Oldsmobile! The newest, smallest, sporty Oldsmobile. Sleek aerodynamic styling. Fun-to-drive design. And, a comfortable Olds ride. The bucket seats recline. Firenza moves down the road with a sporty feel thanks to front-wheel drive for traction and MacPherson strut front suspension for smoothness. The sporty coupe's hatch opens the way to a whole lot of storage space, too. Very practical.

Firenza: it's quite a sporting proposition - with a 1.8-liter, 4-cylinder engine and 4-speed manual transmission standard, and a 2.0-liter, 4-cylinder engine and automatic transmission available soon. Test-drive a new Olds Firenza soon!

INTRODUCING CUTLASS CIERA!

Cutlass Ciera. It's the first Cutlass with front-wheel drive. With all that Cutlass style, plus impressive traction. A 2.5-liter L4 engine with electronic fuel injection is standard. Cutlass Ciera, a new Cutlass up with the latest automotive technology.

NO. 1 SELLER CUTLASS SUPREME!

Over the past seven years, more new car buyers chose Cutlass than any other car. Total value is why. The ride. The room. The comfort. The fine Olds quality. The traditionally high resale value. The 1982 Oldsmobile Cutlass Supremes offer all of this - plus the added value of popular standard features like power steering, power front disc brakes, automatic transmission and extensive anti-corrosion measures... and a lot of style. Engines? A 4.3-liter diesel V6, popular 5.7-liter diesel V8 and a new 5.0-liter gasoline V8 are now available. Isn't it time you traded for the solid value of a stylish Cutlass Supreme? Drive one today at your Olds dealers.

INTRODUCING NEW DIESEL V6!

A brand-new 4.3-liter diesel V6 joins America's best-selling diesel family. Available on all Cutlass Supreme and Cutlass Ciera coupes and sedans.

PRESENTING OMEGA ES!

That smart, sophisticated ES package that gave Omega sedans the grand-touring look inside and out is now available on Olds Omega coupes!

SOME OLDSMOBILES ARE EQUIPPED WITH ENGINES PRODUCED BY OTHER GM DIVISIONS, SUBSIDIARIES OR AFFILIATED COMPANIES WORLDWIDE.
