In a community that depends on agriculture, a lot of people depend on me.

That's because I'm the local representative for All-Risk Crop Insurance. Insurance that protects farmers against natural disasters such as drought, flood, wind, insects, disease and more than one hundred others. Insurance that can save farmers when disaster strikes.

And that's good for our community's economy. Because with All-Risk Crop Insurance behind them, local farmers can still be buyers of other people's goods even when they can't be sellers of their own.
