

Long Attends Conference

Thomas J. Long, Jr., president of the Albemarle Production Credit Association, has returned home after participating in a four-state conference of Federal Land Bank Association and Production Credit Association officials held July 18-20 at the Orlando Hyatt Hotel Kissimmee, Florida.

Mr. Long said that over 900 farmer-directors, presidents and guests of the 46 Land Bank Associations and 57 Production Credit Associations in North Carolina, South Carolina, Georgia and Florida attended the business sessions.

Farmer-owned Land Bank Associations make and service long-term loans for The Federal Land Bank of Columbia to farmers, growers, ranchers and home owners in rural areas. PCAs provide short and intermediate term credit to this same group, as well as to commercial fishermen. The two banks and associations have agricultural loans outstanding to more than 147,000 members in excess of \$7.9 billion in the Carolinas, Georgia and Florida, the four states served by the banks and associations.

Principal speakers during the meeting included John St. John, member, Farm Credit Board of Columbia and senior vice president, Citrus Central, Inc.; Albert T. Sommers, senior vice president and chief economist, The Conference Board; Dr. James Blakely, noted humorist, author and columnist; and C.W.S. Horne, president of The Federal Land Bank of Columbia and Federal Intermediate Credit Bank of Columbia.

The Albemarle Production Credit Association has 797 loans outstanding to members in Pasquotank, Perquimans, Camden, Currituck, Dare, Chowan, Gates, Washington and Tyrrell counties, amounting to over \$48.8 million.

Also attending the Kissimmee meeting, in

addition to Mr. Long were James H. Ferebee, W. Frank Williams, Robert W. Bowen, Frank V. White, Jr. and Donald G. Madre.

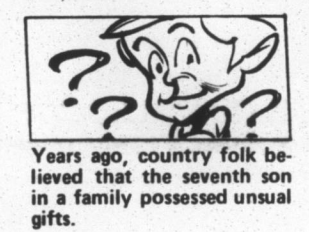

Fishing Tips

From Tom Mann
Just where in the heck do fish disappear to during dog days when birds are panting and dogs' tongues are almost touching the ground? Well, at home you seek out cool spots, out of the sun, and try to get comfortable, right?

That's just what fish do, too. They find shady areas where it's cooler, like back under lily pads, weeds, and brush. Or, they bask under overhangs such as undercut banks, deadfalls, logs, and piers. Also, they seek deeper, mid-lake water close to the thermocline where it's cooler.

To find the thermocline where fish hang out, tie a thermocline to about a 50-foot string. Lower it a couple of feet at a time and take a reading. Normally the temperature drops about a degree for each foot of depth. But when you hit the thermocline it can drop from five to ten degrees. When you encounter this, then check the depth by your string length, and fish just above the thermocline because that's where the fish may be. If not there then fish around those shady spots mentioned, using jellyworms on the bottom, and surface lures on top.

Brer Tom's closing tip: When you fish on a hot day, remember your comfort and you'll enjoy it more. Take along cold drinks and snacks, wear a broadbrim hat and sun glasses, and protect your hide with suntan lotion. Oh yes, don't forget to set the hook, hear?

Years ago, country folk believed that the seventh son in a family possessed unusual gifts.

Little League Allstars
The Edenton Allstar Little League team warmed up their skills for state competition by playing the allstars from Perquimans Co. two games during the weekend. On Friday night, Edenton downed Perquimans 4-1 on the strength of Erie Downing and Michael Bunch pitching. Bunch also added a homerun to aid the attack. On Saturday night, the allstars traveled to Hertford and again pitching was the name of the game. This time however it came in the form of Brad Hurdle from Perquimans Co. who pitched 3 perfect innings and was relieved by Todd Hunter. Three unearned runs and a few baserunning errors allowed Perquimans to take a 4-3 victory. The Edenton team will play in Ayden this weekend beginning Friday, August 6 at 2 P.M.

Ten Year Olds Travel To Manteo
