

Weyerhaeuser Highlights

A brand new boiler capable of using a wide range of fuels has been started up and made an integral part of the fiber operations at Plymouth. The new boiler is capable of using oil, coal, wood waste and in the future, peat as fuel, according to project manager, Britt Smith.

The No. 2 Hog Fuel boiler was brought on line on August 11, at approximately 4:30 P.M. Work on the important new boiler had begun in October of 1980, according to Smith, who said, "this new boiler will allow us to use internally generated wood waste as fuel and in the future, we have the potential to use peat which is abundant of this area of the state".

Fiber mill manager, Paul Schmitt said, "we expect the flexibility in fuel use made possible by this new boiler to result in an appreciable reduction in fuel costs. This can be a great help in making our mill more competitive".

In congratulating Brett Smith, his staff, and everyone associated with the project, Schmitt said, "this is a well run and well managed project brought to completion through a great team effort".

Several employees from the New Bern area have just completed two eight-hour coronary pulmonary resuscitation courses, sponsored by the New Bern Pulp group, according to company nurse, Mary Lou Gaskins.

The two eight-hour sessions included basic CPR training and one-person Heimlich Maneuver used to expel objects from the throats of choking victims.

The course was taught by two representatives from the American Heart Association, Mike Bohnsdahl and Pat Bordeaux, through the Craven Community College. The program, conducted at New Bern Pulp, was coordinated for the company by safety officer, Bob Dorchester.

CPR training courses at New Bern Pulp will continue for the next several weeks.

Steve Shubert, following a successful career in Engineering in Arkansas and North Carolina, has elected to retire in August from the Wood Products group.

Charles W. Harris of Plymouth is being honored this month for 25 years service with Weyerhaeuser Company.

Two Weyerhaeuser employees are being recognized this month for 20 years service with the company. They are Howard G. Daniel of Plymouth and James B. Edwards of Roper.

Nathan Jackson, Jr. of Plymouth and Mable Washington of Jacksonville are being honored for 15 years service with Weyerhaeuser Company.

Thirty three Weyerhaeuser employees are being recognized for 10 years service with the company. They are Rudolph Arnold, Jr. of Roper, Aubrey Asby of Windsor, Jimmy R. Barrow of Plymouth, Bennie Carr of Plymouth, William G. Coffield of Merry Hill, Virgil L. Craft of Jacksonville, Richard A. Dickerson of Merry Hill, Bertha L. Downing of Plymouth, Alvin F. Earley of Windsor, Walter R. Edwards of Roper, Donald Garrett of Jamesville, Ronald Garrett of Pantego, Dennie L. Hall of Windsor, George H. Hoggard of Windsor, Cleonza Jones of Jamesville, Edward O. Jones of Williamston, Linwood L. Midgett of Pantego, Michael W. Moon of Plymouth, Antoinette B. Moore of Plymouth, Brack Murphy of Lewiston, Winfred B. Norman of Roper, Charles H. Oglesby of Bern, Adonis C. Owens of Plymouth, Thomas Pittman of Plymouth, Michael M.

Respass of Pantego, Carrol E. Rhodes, Jr. of Plymouth, Rudolph Simmons of Plymouth, Alphonza Small, Jr., of Plymouth, Charlie Smith, Jr., of Jamesville, Charles S. Waters of Plymouth, Louis Wilkins of Roper, Thomas Wilkins of Roper and Marion H. Williams of New Bern.

Ultrasound

Funds which were recently secured through the Chowan County Medical Development Authority have been utilized to acquire Ultrasound equipment for Chowan Hospital.

Ultrasound is a safe, diagnostic piece of equipment that does not involve the use of x-rays. It is capable of revealing internal structures and details not evident in certain radiographic images. Since no radiation is involved, it can be safely used during pregnancy to monitor the condition of the baby and mother-to-be. It can identify and locate blood clots and abnormal growths, and can detect diseased tissue in some organs of the body.

The actual diagnostic procedure of Ultrasound consists of a hand-held transducer, which resembles a microphone, being placed against the body and slowly being passed over the area being examined. Sound waves pass through the skin, strike the various organs, and send echoes back to the transducer, which changes the sound waves into electrical energy and makes an image on a TV screen. This image gives a cross section of the organ being studied. Photographs of the images are taken so as to have a permanent record for further study and interpretation. No pain is involved as the sound wave frequency being used is too high to be felt.

Ultrasound is an accepted, necessary, and essential part of modern medicine. Prior to Chowan Hospital beginning this service, patients had to experience the inconvenience and expense of traveling to other hospitals. Often there were delays in scheduling and in getting results back to the physician.

A study was undertaken by Chowan Hospital of the number of patients having to leave the community for Ultrasound tests. The study was affirmative that the community could support the purchase of the equipment. The hospital is now proud to be able to offer this improved method of diagnostic examination to the public it serves.

Peoples Bank Monthly Meeting

ROCKY MOUNT—At its regular monthly meeting, held on August 18, the Board of Directors of Peoples Bank and Trust Company declared a third quarter dividend of 31 cents per share on the bank's common stock.

This brings the total declared dividends to 93 cents per share for the year 1982.

The dividend is payable September 30 to shareholders of record on September 15. The dividend date was set for September 9.

Peoples Bank and Trust Company, headquartered in Rocky Mount, has 50 offices in 28 North Carolina communities.

"A Breakfast At The Beach"

"A Breakfast at the Beach" will be the Summer Sunday School program this Sunday at the home of Gil Burroughs. Mr. Burroughs will bring the lesson from John 21, where Jesus met his disciples, following his resurrection, on the beach of the sea of Galilee. Breakfast will be served at 9:30 A.M. "Come Home" will be the sermon title by the Pastor at 11 A.M. Worship. The sermon is from the story of the prodigal son in Luke 15.
