

Completes Training

Airman William T. Belch, son of Leon and Mary L. Belch, Route 1, Edenton, has been assigned to Lowry Air Force Base, Colo., after completing Air Force basic training.

During the six weeks at Lackland Air Force Base, Tx., the airman studied the Air Force mission, organization and customs and received special training in human relations.

In addition, airmen who complete basic training earn credits toward an associate degree in applied science through the Community College of the Air Force.

The airman will not receive specialized instruction in the munitions and weapons maintenance field.

Arrives For Duty

Staff Sgt. Douglas M. McClees, son of Mr. and Mrs. Charlie C. McClees of Route 2, Edenton, has arrived for duty at Seymour Johnson Air Force Base.

McClees, a command and control specialist with the 68th Air Refueling Group, was previously assigned at Ankara, Turkey.

His wife, Audrey, is the daughter of Walter and Doris Jernigan of Edenton.

He is a 1975 graduate of John Holmes High School in Edenton.

First Responder Program

A workshop was held at the ARPDC building in Hertford on December 11 for instructors of the First Responder Program. A total of 29 instructors attended the workshop and are now qualified to teach the First Responder Course throughout the region, including the counties of Camden, Chowan, Currituck, Dare, Gates, Hyde, Pasquotank, Perquimans, Tyrrell and Washington.

This new course consists of approximately 44 hours of classroom instruction and practical exercise and will be offered through the technical school in cooperation with Albemarle Regional Planning and Development Commission and the Office of Emergency Medical Services. The program is designed to teach individuals who may arrive first on the scene of an accident how to provide emergency care to victims until qualified, trained personnel arrive. The first course is scheduled to begin January 3, 1983, at the College of the Albemarle. Classes will be scheduled in other areas as instructors obtain a minimum number of students.

Individuals wishing to become First Responders must complete this course. First Responders will operate under the authority of an approved EMS department and will respond when dispatched by that department.

According to Charlene Dignan, EMS Coordinator at ARPDC, "The concept of the First Responder program is to ensure a rapid response to an accident or emergency situation and to administer aid to victims until more highly trained EMS personnel can arrive and transport, if necessary." Often times immediate emergency care may save a victim's life or prevent serious complications which can arise before the arrival of trained EMS personnel. All areas of the region, but particularly the more remote areas, can greatly benefit from this new program.

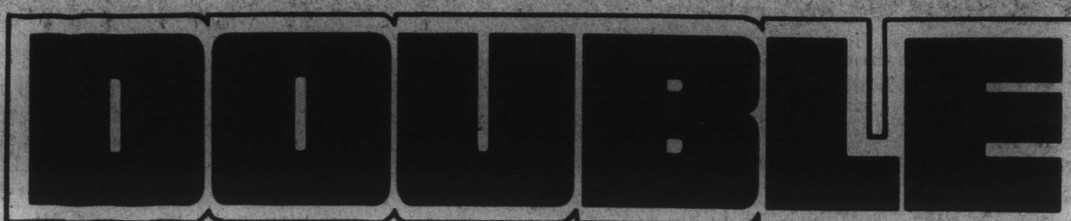

For more information contact your local technical institute or Charlene Dignan at ARPDC, at 426-5753.
