The Optimist Club Sells Barbecue Plates

Do these men look like professional barbecue chefs? The only way you will find out is to come to the V.F.W. Building on Old Hertford Road near Carter's Ink on Saturday, February 26, 1983 between the hours of 4 P.M. and 7 P.M. and buy some of their wares for \$3.50 per plate. These men are members of the Chowan-Edenton Optimist Club and they will be selling pork Barbecue Dinners with potatoes, cole slaw, rolls, and cup cakes, to support the youth activities and programs in Chowan County.

OPTIMIST'S HOLD BARBECUE SUPPER—Members of the Chowan-Edenton Optimist Club will soon be hard at work selling barbecue plates on February 26. The cooks will be (from left to right in the picture) Dickie Layden, David Gurkin, Neal Griffin, Clyde Layden, Ivan Ober, Brent Griffin and Ray Smith.

The youth oriented club provides the Albemarle area with the Annual Fabulous Fourth of July Festival, Chowan County Special Olympics, Free Children Movies, Youth Dances, Christmas For Needy Families, and many, many more services that allow the area youth to get a better break in life. The club also sponsors Bicycle and Pedestrian Safety Programs, Drug Awareness Programs, and the Law Enforcement Appreciation Award each year. Please help the Optimist Club continue their worthwhile cause and buy their barbecue dinner plates.

Education: brings the joy of learning — a life-long experience
A student writes . . . and is answered with scholarships
Perfect picture
Welcome to the wide open Museum home

Education is a life-long process, not something which can be contained within the walls of any school, however distinguished. It is as much a territory for adults as children — there is no limit on curiosity. Pay the person who truly believes that the last nothing more to learn, because that person has ceased to grow!

People learn by a variety of methods. Book-learning is the most common, chief among them — as is the interchange of facts among people, teacher to pupil, pupil to teacher. But, mostly, people learn by opening themselves to the world around them. By allowing their senses to interpret, by leaving their points open, metaphorically speaking, to the world that nature and art and civilization have to offer.

Whether your interests lie in specific areas, or whether you are captivated by everything the world has to offer, there is one percent always to be learned. There is nothing so small it is not worth learning, nothing so large, it is not worth teaching.

Capturing the spirit of an idea in a photograph can be as easy as following a few simple steps on picture-taking. No matter how ideal the lighting and other conditions, ultimately the quality of your pictures depends on the way you handle your camera.

Although many of the new cameras are sophisticated, what appears in the viewfinder is the result of how you use the shot.

One of the greatest advantages of an instant camera is that you can see your results immediately. You can tell right away when you took the time to compose a shot in the viewfinder or when you need to try again.
