

Marland Addresses Home Ec Assn.

The Northeastern Regional Home Economics Association met on March 9 at the Golden Corral in Elizabeth City, North Carolina, with chairman, Pagie Underwood presiding. Despite inclement weather, there were 21 members in attendance, consisting of Extension Home Economists, Home Economics teachers, and retired Home Economists from the Northeastern region of North Carolina. Faytie Johnson, Extension Home Economist in Pasquotank County, introduced the guest speaker, Mark Marland, an attorney from Elizabeth City. He addressed the topics "Women and the Law" and "Women and the Economy." The fall meeting has been set for October 5, 1983, at Soundview Restaurant.

Faith Pentecostal Holiness Church

Church Reports On Its Progress

By Rev. Danny Gurganus
The pastor and congregation of the Faith Pentecostal Holiness Church would like to share some exciting news with you concerning the progress of our newly organized church. The church was organized on December 13, 1982 in a storefront building in Edenton, North Carolina with thirteen charter members. Since the organizing of the church, God has blessed us tremendously. With the help of our conference evangelism department and the Williamston district we have been able to purchase a nice lot on Hwy. 32 in Edenton. After purchasing our lot we set up the conference mobile chapel and have it now beautified.

God has blessed us in finances and also numerically, to the point that we have almost doubled our membership since last December when the church was organized, today we have twenty-four members. Immediately after moving into the mobile chapel the Williamston District churches raised over \$1,100.00 to help us get started. Several ministers of the district volunteered in revival efforts with a different speaker each night during the week of November 11 through the 19th. God blessed each night and the church had quite and experience in the new beginnings at Edenton. Our church would like to thank our conference officials and the Williamston District for all of their help and support in helping us to a great start in our new work.

Perry Gets Internship

Sandra Perry of Greenville has been appointed to a health education internship at Chowan Hospital. Sandra is a senior in East Carolina University's curriculum in School and Community Health Education. She will be engaged in patient education and related activities and under the supervision of Mrs. Clara Mills of the hospital staff.

Sandra is the daughter of Mr. and Mrs. Rhodes Taylor, Route 3, Windsor.

DOUBLE VISION

If you have ever experienced double vision when you were tired or taking medication, you can appreciate how disturbing it can be. Sudden double vision without any apparent cause is very frightening indeed. But regardless of the cause, in simple terms it indicates that the two eyes are not pointing in the same direction.

In the case of double vision due to fatigue or drugs, there is interference with the brain's ability to control and coordinate the eye muscles. Of course, this condition disappears with rest or the disuse of the medication. A more serious matter is double vision which occurs suddenly, without apparent cause, and is present constantly. In this case, you should seek medical attention immediately. Possible causes include a small stroke, a brain tumor, or a hemorrhage.

In most instances, medical treatment will gradually restore normal vision. In the meantime, special glasses can be made which eliminate this unsettling vision symptom.

Too Late For Good Looking Teeth?

If you have teeth that would never be used in a tooth paste ad, do you think it's too late to do anything about it? Do you wish your parents had had your teeth straightened or reshaped when you were a child so they'd look good now?

It's not too late to do something about it. Corrective treatment is not just for kids. In fact, about 20 per cent of all the corrective treatment performed in this country is performed on adults. This figure will probably increase, as more and more people realize how much their dentists can do to improve their appearance.

"Buck teeth" or crooked teeth, for example, can be so unattractive that the person who has them tries to hide them by not smiling. They're embarrassed about their mouths. But "buck teeth" can be reshaped, unsightly gaps can be filled, and crooked teeth can be straightened. That will not only give a lift to your appearance and personality, but it will improve your dental health as well.

Keeping your teeth and gums healthy are good reasons for seeing your dentist. So is improvement of your personal appearance. Ask your dentist about it.

A public service with the aim of promoting better dental health environment. From the office of:
RICHARD N. HINES, JR., D.D.S., 437 South Broad St., Edenton Phone: 482-2776.
