

**Letter To Editor**

Dear Sir,  
Rep. Margaret Stamey has introduced House Bill 376, entitled the Pet Protection Bill, asking the General Assembly to prohibit the sale or donation of pound animals for research or classroom experimentation.

House Bill 376 will protect North Carolina's citizens from having their lost pets turned over for hideous experiments in research institutions. It will protect the state's abandoned animals from a fate worse than death. It will protect pet owners from pet theft by ridding our state of independent animal dealers whose presence creates a market for our pet animals.

This bill must have your support in order to become North Carolina law. Please write immediately to Representative Margaret Stamey, Representative Richard Wright and your own representatives at the Legislative Building, Raleigh, North Carolina 27611. For more information, please contact the North Carolina Network for Animals (NCNA), P.O. Box 33565, or call Raleigh, 833-5364.

Very truly yours,  
Mary E. White
