

Pollution And Beauty

Pollution and Beauty were the topics for the poetry contest at E.A. Swain School. This was another Beautification project. Mrs. Swanner judged the work as it came pouring in to her. The best poems, in each grade level, are as follows:

Beauty

Beauty is something that is in your mind,
Beauty is being nice,
Beauty is being kind,
Beauty is in the eye of the people who see,
Beauty is in the eye of people like me,
Beauty is flowers on a Sunday morn,
Beauty is a shepherd blowing his horn,
Beauty is filled with laughter and glee,
Beauty is something that means the world to me.

Pollution: America's Killer

Pollution, Pollution, Is the dumps.
Pollution, Pollution, I'd rather have the mumps.
Pollution, Pollution, Ruins lakes and rivers,
Pollution, Pollution, Gives me the shivers.

Pollution, Pollution, As terrible as can be,
Pollution, Pollution, Can ruin a sea.

Pollution, Pollution, What a terrible sight!
Pollution, Pollution, Against it we must fight.

Pollution, Pollution, Makes a mess on the ground,
Pollution, Pollution, Attacks without a sound.

Pollution, Pollution, What a terrible thing.
Pollution, Pollution, A mess it'll bring.

Pollution, Pollution, Ruins your afternoon,
Pollution, Pollution, We must stop it soon.

"What Is A Beautiful School?"

A beautiful school is pure,
With people who know for sure,
That a polite school is a nice school,
With good food and smart kids,
Safety-rules and patrolling kids.

The children are nice.

The teachers are smart.

On Friday evenings there's music and art.
Being nice is a very good start.

A beautiful school is a work of art.

Playing, playing, playing isn't what school's about.

Working, working, working when the teacher starts to shout.
The janitors are a special part
that give our school a special heart.

Posters, poems and murals
with colors and colors galore.

A rushing wave salt that comes upon the shore.
Ernest A. Swain School.

It is a pleasant and quiet school.
Lunchroom food like gravy'n rice
'Ghetti and chicken with onion and spice.

Swain! Swain! Shout out loud.

Swain is a school on a number nine cloud.
Enjoy a day of Swain School!

Pollution

Pollution is because of you,
You are the one who caused it,
The filth,
The slime,
It's all because of the human mind.

We don't watch what we do,
Everything ends up a mess,
A place for rats,
And a home for lice,
Our world is tumbling down.

The president can't control it,
So it's all in your hands,
And if you don't take care of it,

Say good-bye to a beautiful land

It all will go away,
If you start today,
Let's not dig our own graves
But preserve our beautiful land.

Beauty

Beauty is many things
Beauty is a diamond ring.
Beauty is being friends
And not being angry if you
don't win.

Beauty is a new-born babe.
Beauty is a nice dressed lady.
Beauty is a land free from
smog.

Beauty is a nice spring day.

Beauty is a thing of joy
And a child's first new toy.

Beauty is many things
Beauty is hearing birds sing.

Looking at Swain

There's beauty in front of you
Though old instead of new
All you have to do
Is give a little of you

Help plant and water the
flowers

Although it could take hours
And remember, don't
complain

It gives me an awful pain
Anyway... What's wrong
with Swain?

Pollution

Pollution is a word,
that some people despair,
because it shows the people

that some people do not care.
Pollution is in the air,
and oxygen is too.

So that means,
Pollution is in me and you.
The factories huff and puff,
and send out lots of smoke.
And having smoke in the air,
is no kind of joke.

The pollution may get in
animals,
and the people might not fuss.
But they will fuss,
when it gets into us.

So please stop pollution which
at us
it's being hurled.
Or else it will pollute,
the whole, wide, wide, world.

Peter Mitchener
Grade 6
Mrs. Bissette, teacher

Beauty

The sky is blue and
you are too. Let's keep
the world clean for
me and you. Let's keep
trash off the ground,
for the little birds
flying around.

The Bandon Chapel Notebook

HI, NEIGHBORS! Sometimes it seems that in spite of all we do, THINGS seem to pile up on us - weigh us down completely. If you ever feel this way, remember this verse by Grace Easley. It will perk you right up!

"As quick as a prayer can bring Him,
He answers my call for aid,
And doors that were locked swing open,
And I am no longer afraid.
No evil has power to touch me,
As long as I am His own,
And placing my feet in His footprints,
I find I'm no longer alone.

He shows me the wisdom of patience,
Consoles when the going is rough,
And pleasures that used to entice me;
Are strangely no longer enough.
With Him I find a completeness,
Fulfilling my dearest hope,
He lends me His shoulder to lean on
When I can no longer cope.

The joy that surrounds His presence
enriches me greater than gold,
His gentle hands lift the burden
That I can no longer hold...
For I am the captive He ransomed,
The reason for which He came,
And touched by His infinite mercy
My heart is no longer the same.
Born without any possessions,
What care I when these be gone,
For I belong to the Master
And I am no longer my own!"

This Lord's Day dawned bright and beautiful - just right to enter the church of your choice to thank God for His countless blessings.

A joyful welcome was extended to those present for Sunday School at Bandon Chapel by Supt. Stan Turbyfill. Wm. F. Smith presented an enlightening lesson, "Conflict in Corinth", Acts 18:14-17. When spiritual conflicts arise, take time to develop a sensitive Christ-honoring way to handle the conflict. Keep cool, keep loving and keep praying.

Prayer List: Anything that concerns one of God's children concerns God. Please add our friends to your prayer list. My neighbor, Marion Dennis, entered Pitt Memorial Hospital last Tuesday for therapy but because of swelling in her right leg, she is now confined to bed until they can discover the reason for the swelling. Cards would really make her feel better. The address is: Althea Dennis, Rm. 421, Rehabilitation Center, Pitt Memorial Hospital, Greenville, N.C. 27834; Audrey Kline entered the Portsmouth Naval Hospital, Portsmouth, Va. on Monday for treatment and surgery. She needs your prayers; Alice Elliott, sister of Kent Rowley, underwent eye surgery Wednesday. Pray that it will be successful; Wilford Topping, brother of surgery this week and is in need of prayer; Gloria Cumbia is suffering from a fall last week; please add Percy Harrell, Jr. and remember my brother, Roy W. Darden, who is recovering from recent open heart surgery; Mike Kane; Hilda Strickland; Meta Mason; Ruth Whitley; Eddie Wright and Owen Pate. Pray for our Nation and its people, pray that God will guide the decisions made by our leaders and leaders of other nations. Remember all missionaries, all churches and our Pastor, Rev. R.S. Harrell and family.

graced our altar on this Mother's Day, courtesy of Mr. & Mrs. Bucky Taylor.

At our Worship Service Bandon's Shepherd, Rev. Robert S. Harrell, recognized our many visitors on this special day. Our youngest baby, Nathaniel Scott Turbyfill (2 weeks, 2 days old), was introduced to the congregation by his father, Stan.

Pastor Bob brought a memorable Mother's Day message, based on 2 Tim. 1:1-7. Resume: It's nice to set aside one day in the year to honor our mothers, but we shouldn't wait for that one day - we should focus our attention and praise on our mothers EVERY day. On this special day, let us also pay tribute to all women who dearly love children but for some reason, have none of their own, such as: Women who have remained single for various reasons but who have a great impact on the lives of children or young adults they come in contact with; women who are married but for physical reasons cannot have children yet all their lives give their love and unselfish devotion to someone else's children; women who have no children of their own but give of themselves unceasingly to foster children, opening their lives and hearts to show them care and love; and last but not least, grandmothers. Their support, love, care and concern are of primary importance.

In our scripture, Paul credited Timothy's mother and grandmother for the love of God and faith in God they had instilled in Timothy. Parental responsibilities should never be taken lightly.

AMERICA NEEDS SCOUTING!! Former President, Gerald Ford, reminds

us of this fact day by day on T.V. I'm happy to report that scouting has taken a big swing upward in our community through the skilled leadership of Scout Master Stan Turbyfill, Asst. Scout Master, Billy Owens and concerned committee members, such as Elton Harrell. Last weekend the boys of Troop No. 172, sponsored by Bandon, enjoyed Jamboree style camping at the Elizabeth City Coast Guard Base where they won a Gold Ribbon in Wilderness Survival competition. The CG Atlantic Strike Force treated them to a Scuba Diving demonstration. Interesting and humorous skits around the campfire were an added highlight. Troop No. 172 meets every Thursday at 7:30 P.M. in Fellowship Hall at Bandon Chapel. Eligible boys in the community are invited to participate.

Clyde Hollowell was planting tomatoes last Wednesday morning when God called. His task on earth was finished. Jesus guided him home, to a place beautiful beyond description, where he will walk hand in hand with his Saviour. Because we are human, we mourn for ourselves - but - to his family and friends, especially his wife, Myrtle, I say Rejoice! He has found perfect peace.

Listen to your child, he can tell you a lot. Here are 21 memos from your child that are very important for parents to adhere.

- Don't spoil me. I know quite well that I ought not to have all that I ask for. I'm only testing you.

- Don't be afraid to be firm with me. I prefer it, it makes me feel more secure.

- Don't let me form bad habits. I have to rely on you to detect them in the early stages.

- Don't make me feel smaller than I am. It only makes me behave stupidly "big."

- Don't correct me in front of people if you can help it. I'll take much more notice if you talk quietly with me in private.

- Don't make me feel my mistakes are sins. It upsets my sense of values.

- Don't protect me from consequences. I need to learn to detect them in the early stages.
