Contacts After Cataracts

size.

appearance

When the crystalline lens ecomes cloudy and opaque, causing a decrease in vision. it is then called a cataract. Although anyone may develop a cataract, at any age, it is usually the result of the aging process and most often occurs in people over

fifty If left untreated, cartaracts can result in legal blindness. However, there is an effective remedy availabe. The lens of the eye is surgically removed and its power is replaced by the use of a very strong con-
