

# HEROKEE GO-OUT

**The Other Room.**  
The earthly room of the Father's house  
With its mountain, forest and glen,  
Its rivers and lakes and its flowery fields,  
Is a beautiful home for men.  
But, when the golden sunset  
I see in the western sky,  
I think of the scenes which  
I have seen in the Father's house.  
There are loved ones waiting for me,  
And oft times I grow impatient  
These long-lit faces to see;  
I can see them in fancy tonight,  
As I sit by the fire-side musing  
And gaze at the embers bright.  
Sometimes I've doubted the wisdom  
Of the Father's dealing with men,  
But I always tried to remember  
That His house has a "but-and-ben,"  
A two roomed house to my thinking,  
With portieres hanging between,  
And I'm sure when the portieres are  
parted  
The loved ones will be seen.  
I've seen the mists of the morning  
Hiding both mountain and dale,  
And have watched the sun as with gentle  
hand  
He parted nature's veil,  
And lo! the mountains in beauty  
In garb of every hue,  
Were smiling when the portieres parted,  
Which had hid them from my view.  
If our eyes were keen in beholding  
Through the mist of material things,  
We could see the face of our loved ones,  
And hear their voice as it sings,  
Not far from our side do they wander;  
They are still in the Father's house,  
And when the portieres are parted  
We shall see and our hearts'll rejoice.  
—Clark Avery.

**Editorial Notes.**  
Today the election is being held, so hurriedly for us and our country, that we have no time for a character who is only fighting for reputation.  
Whiskey will flow freely today, and many men will be killed and scores wounded.  
What is to become of the mighty host of political speakers? After today they will be out of a job.  
With nine presidential tickets in the field today, every voter ought to be satisfied. Take your choice.  
The Baltic sea fleet is rushing to certain destruction, and Russia is as well aware of this fact as any one else.  
Many a man will cast his first ballot today, and many a man his last one. Such is the uncertainty of life.  
Atlanta is experiencing an epidemic of assaults and burglaries, and the police always arrive just after it happened.  
We are for anything that will build up Murphy, and keep up the good work that she is now accomplishing.  
If people had to talk with their brains instead of their tongues, most of them would be silent to-day.  
There are 778 rural mail carriers in North Carolina, who receive over \$40,000 a month. This is not such a bad showing.  
The total valuation of real estate in North Carolina as returned for taxes is \$220,303,339, an increase of \$32,000,000.  
Agitate the electric light and waterworks question, now that the election is about over. Nothing was ever accomplished without agitation.  
A wicked exchange says that an old maid caught a burglar, adding that some of the women appear to be getting desperate as the leap year advances.  
Several of the airships at the St. Louis fair have made short but successful trips. In a short while airships will take the place of automobiles as a mode of travel.  
The North sea incident between Russia and England is at last to be settled by a court of inquiry, and it is probably that Admiral Geo. Dewey will be made a member of the court.  
It is fortunate that the many things said by opposing political speakers will soon be forgotten. But we can truthfully say that the campaign just closed was cleaner than many of its predecessors.  
The history of the assaults on Port Arthur since the first of last August, tells of desperate fighting by desperate men. It is now only a question of a short while until it must surrender.  
The city of Winston-Salem, this State, was visited Wednesday by a terrible accident. The north wall of the reservoir burst with a roar and millions of gallons of water swooped down upon the fifty houses adjacent, drowning thirteen people and injuring scores of others.  
President Roosevelt has issued his proclamation calling upon the people to observe November 24th as a day of Thanksgiving. Crops have been bountiful and the times are prosperous. Altogether each individual has much to be thankful for and the Giver of good gifts should not be forgotten.

**Corpse Sat Up.**  
According to a dispatch from Omaha, Neb., at the morgue what was believed to be a dead man suddenly threw off the sheet with which he was covered and with a groan looked up and said: "I'm not dead."  
A stranger, who from papers on his person was believed to be James Black, a bricklayer from Cedar Rapids, was found unconscious in the street by a night watchman for a lumber company. Beside him lay a half empty bottle of ether. The unconscious man was taken to a hospital and there at 2 o'clock apparently expired. Coroner Brady was notified of the supposed death and removed the body to the morgue and impaneled a jury to make an inquest. Then Black arose as from the dead. A physician was immediately summoned and applied restoratives, but Black soon fell into unconsciousness again and died in a few hours.  
**The Exact Thing Required for Constipation.**  
"As a certain purgative and stomach purifier Chamberlain's Stomach and Liver Tablets seem to be the exact thing required, strong enough for the most robust, yet mild enough and safe for children and without any gripe or griping so common to most purgatives," say Dr. J. S. McCombs, Udora, Ontario, Canada. For sale by all druggists.

**Candidates To Be Voted For Today.**  
From the Charlotte Observer.  
Today nine presidential tickets will go before the American people for their approval. Only six will be generally considered the Democratic nominees, and among these there are candidates representing the following parties: People's, Prohibition, Socialist Labor, Continental (labor), National Liberty (negro) and Lincoln (negro). The two negro parties, however, apparently ended their work when the national conventions adjourned, as no electors have been selected, or at least none will appear on any official ballot; and the Continental party seems to be confined to Illinois, and perhaps to Chicago, the place of its origin.  
The terms of 30 United States Senators expire March 4th next. Seven of the vacancies have already been filled, and the legislatures of 23 States to be elected today will fill the other 23. Members of the House of Representatives are to be voted for in all except three States, Maine, Vermont and Oregon, which have already elected their Congressmen. In 27 States a Governor and all, or nearly all, the elective State officers are to be chosen; in five States minor State officers are to be elected, and in 13 the electors are to be voted for. South Carolina enjoys the distinction of having only one ticket in the field. All the other States have from four to six, Illinois leading with seven. In Delaware there are one tickets in the name of the candidates. In Mississippi the Republican ticket is the only one. The full State ticket is made up of Prohibition and Socialists. The Prohibition Party has an active organization in 32 of the 45 States, the nominees for State officers being on the official ballot in 12 States and for electors in 20. The Prohibitionists have electoral and State tickets in 12 others.

**Intended Length of Life.**  
According to the Canadian Churchman, which we suppose is good authority, there has been very little, if any, change in the duration of man's life since the days of the patriarchs, that is, some four or five thousand years ago. Every one did not attain to great age in those days, any more than they do today, for various reasons stated in the Bible, and as that is the place we have to go for early records, we will begin with a quotation from it, Genesis, vi. 3: "And the Lord said, My Spirit shall not always strive with man, for that he also is flesh; yet his days shall be an hundred and twenty years."  
Abraham lived to be 175 years old (but his two younger brothers appear to have died before him.) Abraham's wife, Sarah, lived to be 127 years old; Isaac lived to be 180; Ishmael lived to be 137; Jacob lived to be 137; his son, Moses, lived to be 120; Kohath lived to be 133; his son, Amram, lived to be 137; Aaron was three years older and died some years before him; Joshua lived to be 110.  
The number of persons reported in 1900 as centenarians and over was: England, 170; Ireland, 578; Scotland, 46; Sweden, 10; Norway, 33; Belgium, 5; Denmark, 2; Switzerland, none; Spain, 401; Serbia, 575; France, 213. This is not by any means a complete list, as only some countries are given, but it helps to prove that we should live to be 120 years or over, and that we do not do so was not the plan or intention of our Almighty.

**RYDALE'S TONIC**

A REAL CURE FOR MALARIA.

It has recently been discovered that the germs that produce Malaria, breed and multiply in the intestines and from there spread throughout the system by means of the blood. This fact explains why Malaria is hard to cure by the old method of treatment. Quinine, Iron, etc., stimulate the nerves and build up the blood, but do not destroy the germs that cause the disease. Rydale's Tonic has a specific effect upon the intestines and bowels, freeing them from all disease breeding microbes. It also kills the germs that infect the veins and arteries. It drives from the blood all poisonous matter and makes it rich and healthy.

RYDALE'S TONIC is a blood builder, a nerve restorer, and a Malaria destroyer. Try it, it will not disappoint you.

**Politicians Fight.**  
ASHEVILLE, November 2.—Tom Settle, of Asheville, and Homer Cathey, a Democrat of Skyland, this county, engaged in a personal encounter in the lobby of the Hotel Berkeley this evening about 5:30. Cathey knocked Settle into one of the large plate glass windows on the east side of the office, and then kicked him on to the stairs leading to the bar of the hotel. The fight was the result of a political discussion, and it is said that Settle first struck Cathey with a walking stick, whereupon the assailed returned with a blow of the fist that sent the ex-Congressman into the window light. Both men were cut from the broken glass.

**Is Beauty Only Skin Deep?**  
Beauty is only skin deep, but the forces that create beauty are as deep as the fountain from which they flow. When blood is charged with impurities beauty disappears; when blood is pure beauty blossoms in face and form. Rydale's Liver Tablets keeps the liver healthy and the bowels regular, prevents the blood becoming laden with bile and waste matter, make the skin clear, eyes bright and twenty more than skin deep. Murphy Drug Co.

**War News.**  
Friday's dispatches from the front in the fall of Port Arthur were so full of operations against the position that the prolonged attack is now entering upon the last of the memorable siege.  
For the first time the Associated Press correspondents were denied to send dispatches from the front. Arthur and the Japanese practically all the fighting defenses are now in the hands of the Japanese, who are sanguine of immediate victory.  
The armies of Oyama and Kuropatkin still confront each other, along the Shakhe river, except for skirmishes and petty exchanges.  
Sunbay's papers contain little war news. It seems that the Japanese are getting close to Port Arthur. With the aid of field glasses they can see inside the doomed city before whom 40,000 Japs are gathered.  
The two armies are now in a battle may begin.

**Herb W. Edwards.**  
Herb W. Edwards, of Des Moines, Ia., got a fall on the sidewalk last winter, spraining his back and bruising his knees. "The doctor says, 'they were so sore that I afraid I would never walk again, but I rubbed the Chamberlain's Pain Balm on the applications all soreness disappeared." For sale by
