Photo shows George Christensen, of New York, a Pullman car inspector for the New York Central Ry., displaying his remarkable muscle control by writing simultaneously with both hands and both feet. While attending school he was forced by his teacher to write with his right hand. As he was naturally left handed, George's left hand was tied behind his back for a whole year to break him of the habit. At the end of that time he found that he was perfectly ambidextrous.

BELLEVIEW

The farmers of this section are very busy preparing to plant corn.

A party of young people from Martin's Creek and Belleview enjoyed an Easter picnic on Beaver Mountain March 31st. The party was made up of about twenty five boys and girls, among whom were six Young Harris' College boys, and Mr. Clyde McNabb, of Suit. All were out for a good time and certainly were not disappointed. After dinner, which was principally cooked over a camp fire by the girls, the crowd disbanded and made their way to the peak of the mountain, where they enjoyed some interesting games and the panoramic views of the country for several miles around.

Paint for this house less than \$31.00

YOU need only 8 1/2 gallons of Certain-teed Outside White to paint a spacious home like this (40' x 32'). That means less than \$31 for the paint. There is nothing more artistic than a nicely painted, white house in its setting of green lawn and shrubbery. When it takes so little paint to keep a fine home like this fresh and new, it is a pity to put off painting. Whatever the color let us show you the choice rich shades to be had in Certain-teed outside paint.

Certain-teed

We recommend Certain-teed paint because it gives our customers more for their money. Our experience is that Certain-teed has more body and wears longer than ordinary paint.

Minister Tells How To Get Customers

A PREACHER, Dr. Clinton Windler, of Rochester, N. Y., is quoted in Printers' Ink as saying: "Our attendance last year averaged 2,000 per Sunday, which is an estimated increase of four times over the period when there was no systematic plan of advertising."

People knew that church was there, before systematic advertising was used. They not only knew the church was there, but they knew that sermons were preached in that church every Sunday. Two hundred and fifty regular customers attended service. The church advertised. Two thousand and come now.

Do people know where your store is? What do you care, unless they come around and buy from you? Advertise!
