EDITORIAL

The Senior Class exercises were among the best ever witnessed at the closing of a school in Murphy. The four members of the class did their parts gracefully and beautifully. As the speaker of the evening said, it was a small class in quantity but large in quality.

The fact that there were only four members in the Senior Class should give the patrons of the school something to think about. There were this year one hundred and five enrolled in the first grade. There were probably nearly this number enrolled when the present Senior Class started out. Where are the other one hundred and one? Whose fault is it that they have fallen by the wayside? Is not education valued enough to hold a greater percentage of pupils to graduation?

In the leaving of Professor Chas. F. Owen, the public school loses a very valuable Superintendent and leader of young people and a man, whose place will be difficult to fill. Mr. Owen was a highly efficient school man, was interested in the welfare of the pupils and there was blended in him the spirit of fairness and justice alike to all to a most remarkable degree. He was firm, yet sympathetic, kind and considerate and his controlling purpose was to help the young people of the town. He will be greatly missed by the school and the community.

Truth will out, is a familiar saying. And we have no better example of the truth of this statement than that furnished by self-incriminating statements of Patton Taylor when he was insane in a Washington sanatorium. One may run away from his deeds but sooner or later the truth will be found out. Nothing of the guilt or innocence of the man in question is known, not even the main facts in the case, but the method by which he incriminated himself is rather unusual.

We are in receipt of an official document issued by the Ways and Means Committee of the United States Congress, entitled, Comparison of the Tariff Acts of 1922, 1913 and 1909, of three hundred pages, which is perhaps the most complete array of cold facts ever published. The volume gives the actual rate of duty on every article imported under the last three Tariffs with other valuable information as to the Emergency act of 1921, special provisions and the administrative features of the new law.

If you cannot obtain this volume (Doc. No. 33) from your Congressman or United States Senator, drop a line to the American Protective Tariff League, 137 Centre Street, New York.

BILL SAM'S DICTIONARY

By J. L. MARTIN
The debate at Cross Roads school house Friday night forever settled the question whether Len Gardner's old work horse has real sense or just a high grade of instinct. Bill Dooley, who spoke on the side of the affirmative, proved by actual facts, and convinced all three of the judges that Len's old horse has more horse sense than Len has instinct.

Three of the neighbors swapped automobiles Saturday afternoon. We trust neither of them will regret it.

A nurse's class of about twelve persons has been organized at the community school house with Mrs. W. A. Slawson, in charge as instructor. The first class period was held Saturday night and was intensely interesting. Class meets each Saturday night and is open to all.

I am sure that Mr. J. R. Hyatt, in his letter from here last week, meant no reflection on his neighbors when he said, "I am, or have been for a long time, the only person who has been a reader, or rather a subscriber, to The Scout." Your scribe has been a subscriber for, at least, five years and knows of two of his neighbors that are subscribers.

Mr. Aaron Post, who is working for the Quinn and King saw mill people on Notla River, spent the week-end here with friends, and returned to his job Sunday afternoon.

Paint for this house less than \$18.00

IT takes but 5 gallons of Certain-teed paint for two good coats on a house like this (30' x 35'). That means less than \$18 for the paint. When you consider the high cost of building today and how little paint it takes to protect the dollars now invested, can you afford to put off painting? Whether house, garage or interior work, come in and let us estimate the paint it takes. Our estimates always call for Certain-teed. When you dip in a brush and start to spread, you know why we recommend it.
