**Minister Tells How To Get Customers**

A PREACHER, Dr. Clinton Windler, of Rochester, N. Y., is quoted in Printers' Ink as saying: "Our attendance last year averaged 2,000 per Sunday, which is an estimated increase of four times over the period when there was no systematic plan of advertising."

"People knew that church was there, before systematic advertising was used. They not only knew the church was there, but they knew that sermons were preached in that church every Sunday. Two hundred and fifty regular customers attended service. The church advertised. Two thousand come now."

"Do people know where your store is? What do you care, unless they come around and buy from you? Advertise!"

**SOUTHERN TO OPERATE THREE TRAINS DAILY**

Service Indirect Growth and Variety of Textile Industry the Piedmont

CHARLOTTE, Aug. 6.—Three special textile trains to be loaded solidly with the products of Carolina mills, will be operated daily by the Southern Railway System, beginning August 1, according to an announcement made from the Southern's offices in Charlotte.

All cotton factory products for points outside the South will be handled in these trains, which will run on fast schedules and be given the same attention as has been given to the special trains handling packages and other perishables.

Trains will be run from Greenville, S. C., to Potomac, Va., handling freight, moving all rail to Eastern destinations; from Greenville, to Pines Point, Va., handling freight moving via boat line to Baltimore, Philadelphia, New York, Boston, and Providence; and from Spencer, N. C., to Cincinnati, Louisville and East St. Louis, with a connecting train from Hayne, S. C., to Asheville, handling freight for the West, including twenty-five daily package cars for destinations on and beyond the Ohio River.

Solid cars loaded by the mills as well as package cars loaded at the Southern's assembling stations at Spencer, N. C. and Hayne, S. C., will be handled on these trains.

No short haul freight will be handled on them and there will be no switching at intermediate terminals.

The establishment of this service exclusively for cotton factory products strikingly illustrates the growth and diversification of the textile industry in the Piedmont territory, the variety of goods now being turned out and the wide range of destinations to which they are moved having influenced the management of the Southern to inaugurate these special trains as a further contribution to the upbuilding of the textile industry in the territory it serves.

Schedules of the special textile trains will be as follows:

- Leave Greenville 6 a. m.; leave Spencer 4:27 p. m.; arrive Potomac Yard 1:30 a. m.
- Leave Greenville 6:10 a. m.; leave Spencer 5 a. m.; arrive Pines Point 4:30 a. m.
- Leave Spencer 12:01 a. m.; leave Hayne 5 a. m.; leave Asheville 10 a. m.; arrive Louisville 1:30 a. m.; arrive Cincinnati 4 p. m., second morning, and arrive East St. Louis 7 a. m., third morning.

**Hiram Johnson**

The enthusiastic welcome accorded Senator Hiram Johnson by the committee of welcome appointed by Mayor Helen of New York City tended to lend credence to the rumors that the distinguished California Senator is being groomed to run on a third party ticket.

**Hall's Catarrh Medicine**

Those who are in a "run-down" condition will notice that catarrh bothers them much more than when they are in good health. This fact proves that while catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a potent remedy for all catarrhs of the nose, throat, and lungs. It is sold by druggists for over 40 years. F. J. Cheney & Co., Toledo, Ohio.
