

No Damage Done
After much excitement the Smiths
had at last managed to catch the train.

"Oh, Harry," she gasped, "I forgot
got to turn off the electric iron."
"Don't worry, darling," he replied
"nothing will burn, I forgot to turn
off the shower bath."—The Christian
Advocate (New York).

Winesap Apple: 1st, J. F. Holden,
Blue Ridge, Ga.; 2nd, T. J. Thomp-
son, Murphy.
Kinnard Apple: 1st J. F. Holden
Blue Ridge, Ga.

Raleigh Lady Gaine 25
Lbs. By Taking Tanlac

"Tanlac increased my weight 25
pounds in less than six weeks' time,
entirely overcoming two years of
serious stomach trouble," recently
declared O. G. Ahosson, 212 South
Dawson St., Raleigh, N. C.
"About four years ago stomach
trouble, with severe indigestion and
constipation, had me in a terribly
run-down condition, and my nerves
were so unstrung I couldn't keep
still. Everything I would eat
soured on my stomach, causing gas,
bloating, severe headaches and such
dizzy spells that I could hardly
stand up. Pain around my heart

and between my shoulders made me
roll and toss at nights so I got but
little sleep.
"Tanlac quickly corrected all this,
put me to eating and sleeping fine,
quieted my nerves, did away with
headaches, pains and constipation,
and built me up so I hardly knew
myself. When feeling rundown I
still take Tanlac, and soon get relief.
Tanlac has no equal."
Tanlac is for sale by all good drug-
gists. Accept no substitute. Over
37 million bottles sold.

BEST BY TEST

"SERVICE" IS MUCH USED AND
ABUSED WORD
And but few people have definite knowledge of what the
term really means. When PARKER employs the word,
there is nothing vague or indefinite about it. We simply
mean that at this drug store you get careful and courteous
attention, correctly filled prescriptions, and quick delivery.
FOR CONCRETE PROOF OF THIS STATEMENT, GIVE
PARKER'S SERVICE A TEST!

"PRESCRIPTIONS A SPECIALTY"

An ugly cut?
MENTHOLATUM
is antiseptic and
healing.

Paint for this building less than \$4.00
YOU get an idea of how much surface Certain-teed
paint covers to the gallon when you find that only
two gallons are required for two good coats on a poul-
try house like this (16' x 32'). Less than \$4 will buy the
paint. The smaller buildings are often overlooked at
painting time, but without paint they rot and warp just
as quickly and in proportion are as costly to replace.
We can save you money on Certain-teed paint. Each color sells for
what it costs to make plus a fair profit. On your smaller buildings
you can use the less expensive colors and at a considerable saving.
We are making a
specialty of Certain-
teed paint because it
makes real friends for
us. See our complete
line before painting.
Certain-teed
House Paint No. 437 Brown Per gal. \$2.50
Barn, Bridge and
Roof Paint No. 461 Red Per gal. \$1.60
House Paint No. 445 Olive Green Per gal. \$2.75

Magnetic Station
For Every County
As a result of a recent interview
between the Director of the Survey
and the Director of the United States
Coast and Geodetic Survey, definite
agreement has been reached whereby
the 101 magnetic stations in North
Carolina are to be revisited, replaced
or repaired and new observation
taken.
As a result the State will have,
what no other state can boast, a
magnetic station, at every county-seat.
The work, which will be done by
the experts of the U. S. Coast and
Geodetic Survey, has already begun,
and will be pushed to completion
under a plan of cooperation between
the Federal and Economic Survey
with the agreement that it will be
completed and the result, with the
new magnetic observations, published
by the fall of 1924.
Of the 101 magnetic monuments
supposed to be in the State, it is
estimated that about fifty are out
of repair or need replacement. In
some instances they have been re-
moved on account of building or
street or road repair, and in others
their effectiveness as points from
which to make observations for the
correction of surveyor's instruments
has been destroyed. The new survey
will either put up new monuments
or so rearrange those in existence
as to bring them back to usefulness
and establish them in up-to-date
accuracy.
Importance of these scientifically
established monuments to counties,
surveyors and land owners can scarce-
ly be estimated. Surveyors generally
are asked to find monuments in the
proper location of the stations, and
all surveyors or engineers wishing in-
formation on any question relating
to the use of the new stations for the
testing of compasses, of general in-
formation as to magnetic conditions,
etc., are asked to apply to the Director
of the United States Coast and
Geodetic Survey, Washington, D. C.
who will gladly give all assistance
required along these lines.
Plant some nitrogen-gathering
legumes for soil improvement and
livestock's pasturage.
Miss Julia Moss of Ednesville won
the prize offered by the Henderson-
ville News for the best farm story in
September. Her article was about
farm improvement.
