This was Dr. Meroney's first visit to Murphy in 18 years, and he found many interesting and familiar scenes, although many changes. One thing of peculiar interest was when he visited The Scout office and recognized much of the equipment with which he used to work when he "set type" and assisted his father in producing "the leading newspaper in this section of western North Carolina." Dr. Meroney had many words of praise for Murphy and predicted a great future for this section. He has many friends here who were glad to renew acquaintance. ## EGG STORAGE IN TRANSIT PUT ON BY SOUTHERN

Atlanta, Ga., June 17.—To encourage the development of the poultry industry in the South, the Southern Railway System has authorized the storage in transit of carload shipments of eggs at Atlanta, Birmingham, Chattanooga, Louisville, and Jacksonville, through its "Egg Transit Tariff No. 1" which has been filed with the Interstate Commerce Commission and is now in effect.

Under this tariff, eggs can be placed on storage in the cities named, at which there are ample refrigeration facilities, and later reconsigned to a wide range of destinations at the through rate from point of origin, plus a transit charge of five cents per hundred pounds. Eggs placed on storage under this arrangement can also be exported through South Atlantic and Gulf ports to Cuba and South American countries in which there is a large market for eggs from the United States.

In explaining the advantages of this arrangement to poultrymen of the South, General Agricultural Agent Roland Turner, of the Southern, said:

"This arrangement has been put in effect to encourage dealers and organizations of farmers at local points to buy eggs during the heavy season, assemble them in carload lots, and ship them to the storage points where they can be held until market conditions justify reshipping them for sale. In this way, farmers will be provided a year round market for

## SAYS HE FEELS LIKE NEW MAN

Says Dr. Thatcher's Liver and Blood Syrup Has Given Him a New Lease on Life

"I feel as though Dr. Thatcher's Liver and Blood Syrup has given me a new lease on life," said T. B. Moore, R. R. No. 26, Matthews, N. C.

"When I started taking Dr. Thatcher's Liver and Blood Syrup I was in mighty poor shape. My liver must not have been working right, for I was bilious and constipated and suffered from headaches and that tired feeling."

"I read that they would give you your money back if it didn't do you any good. I could find nothing but praise for that first bottle, so I took three more and it fixed me up fine. My liver and bowels are doing their duty and my head is clear and I am full of new life and energy."

Dr. Thatcher's Liver and Blood Syrup is sold by R. S. Parker and if you are not satisfied the purchase price will be refunded.—Adv.

## 25 Percent Reduction Applies to Individuals

Washington, D. C., June 17.—Corporations are not entitled to a reduction in income tax under the revenue act of 1924, said Internal Revenue Collector David H. Park, in a formal statement here today. Continuing the statement he said: "Capital stock tax is not repealed and certain stock tax returns must be filed and payments made to the U. S. Revenue Collector at Raleigh during the month of July."

The commissioner stated that the 25 per cent reduction was of importance because of the misunderstanding that had arisen over the publicity given the revenue act during its passage in Congress. He pointed out that under the provision of Section 230 of the act the income tax on corporations is 12 1/2 per cent, which is the same rate of tax applicable for the year 1923. Corporations, therefore, are not permitted to take as a credit any reduction in tax for the payments already due or to fall due in the future. The credit of 25 per cent is limited to individuals, Mr. Blair stated.

butury to Murphy. The election is called to vote on an issue of not exceeding one hundred thousand dollars in bonds to raise revenue for this purpose. If less than this amount is required, of course, they will not be sold. But little outlay will be required for property rights in case the dam is raised. A survey already made up the river shows that only 24 and a fraction acres of land would be covered, which is largely bluff land and practically worthless.

This is a serious proposition and the people are being asked to give the matter serious consideration before the election on the 15th of July. For the purpose of holding the election T. W. Axley has been appointed registrar, and Messrs. Sid Pendley and H. D. Aldin have been appointed judges.
