Grading Begun In Limits of Towr

This week the steam shovel of the Wilson Construction Company was moved into the eastern portion a own to begin the construction of the grade leading from the Valley River castward. Dirt for the grade is being borrowed from the lot o Mr. W. W. Hyde on the hillside just beyond his garage. It is contemplated that the grade can be completed by early August. This will be ad-vantageous in that it will have time to settle before the rainy winter seasor begins.

Throughout the entire battle, which issu asted until 2 oclock Sunday morning, hardly any possible blunder was avoided. The delegates, who left angry and unhappy, were nearly so and as those who had hored for some thing really fine from the party.

In politics there are two types we can admire. We like the man who Creek. Fatal Blunders.

But on the whole the Democratic Convention has produced neither. There is nothing of out and cut principle, nothing that will attractrepel for that matter-any large body of voters. That was a blunder of principle, but it is only about once a century that we find a man capable of leading a successful fight on priniple, so that is the lesser blunder. The greater was the one of exped-

iency. The last administration has provided the issue of clean govern-The Democratic Party was given the chance to make a fight for honesty, for common sense. It is not an issue of principle becaus there is no argument for the other side, but it was a good political issue But the convention threw it over board. The campaign managers will try to recapture it, but the fact will remain that the men and women who are supposed to be the leaders and the flower of the party have made their biggest fight on an issue of narcow, bigoted religious intelerance.
